ONE OF REV. DR. TALMAGE'S \_\_STERLING DISCOURSES.

Subject: "The Opening Winter."

Text: "I have determined there to win

Paul was not independent of the seasons. He sent for his overcoat to Trons on a memorable occasion. And now in the text he is matting arrangements for the approaching cold weather and makes an appointment with Titus to meet him at Necopolis, saving: "I have determined there to winter." Well, this is the 8th day of December and the second Sabbeth of winter. We have had a few shrill, sharp blasts already, foreruners of whole regiments of storms and tempests—No one here needs to be told that we are in the opening gates of the winter. This season is not only a test of one's physical endorshame, but in our great cities is a feet of moral character. A vest multion been destroged and over the subject of the s

way enough to know when you come out, by the glare of your eye and the stench of your breath, that you have been serving the Gevil.

Men sometimes excuse themselves and say after late suppers it is necessary to take some sort of stimulant to ald digestion. My plain opinion is that if you have no more self control than to stuff yourself and the summer of the season that yourself and the summer of the season of the year the land send out circulars asking the years to speak a word on this subject, and so I sound in your ear the words of the Lord God Almichty. "Woe unto him that putteth the bottle to his neighbor's lips." Rejote that you have come to the glad winter months that remind you of the times when in your childhood you were shone on by the face of father, mother, brothers, sisters, some of them, alas! no more to meet you with a "Happy New Year" or a "Marry Christims." But gadin and again have we seen on New Year's Day the sons of some of the best families drunk, and young men have excused themselves by the fact that the wine oup has been offered by the ladies, and again and again it has been found out that a lady's hand has kindled the young man's thirst for strong drink, and long after all the attractions of the holiday have passed that same woman cruches in her rows and the plitted that of the drunken woman woman women the plitted that the wine out feelings if need be? When the good ship London went down, the captain was told that he might escape in one of the lifeboats. "No," he replied, "I'll go down with the passengers." All the world applauded his heroism. And can we not sacrifice our testes and our appetites for the resule of the holiday have passed that wond was the plitted out of the lifeboats. "No," he replied, "I'll go down with the passengers." All the world applauded his heroism. And can we not sacrifice our testes and our appetites for the rescue of othere? Surely it is not a very great sacrifice. Oh, mix not with the innocent beverage of the holiday the poisson of adders! Mix not with the wh the giare of your eya and the steelen of your breath, that you have been serving the post. The company of the post of the post

ment. Three X's on the breng's dray, three X's on the side of the bottle. Three X's on the side of the bottle. Three X's on the side of the bottle. Three X's and another what was the meaning of the three X's. He could not tell. I skeed another what was the meaning of the three X's. He could not tell me. Then I make up my mind that the three X's was an another gory, and that they meant 30 seachesks, 30 goones, 30 broken up house sheet, 30 goones, 30 broken up house pects of a drunkard's R's me and another a story, the first hapter I would call "Three X's I there going to write a story, the first hapter I would call "Three X's and the last chapter I would call "Three X's and the last chapter I would call "Three X's and the last chapter I would call "Three X's and the last chapter I would call "Three X's and the last chapter I would call "Three X's and the last chapter I would call "Three X's and the last chapter I would call "Three X's and the last chapter I would call the last chapter I would call the last chapter I would be a search with the last chapter I would be a beautiful thing for him to do, but he will not do it. The most of our young me are busy in offices, in factories, is hanking fouses, in stores, in shope, and when everaing comes they want the resh sit, and they want sight-seeing, and they must have it, they will have it, and they ought to haveit. Most of the men here assembled will have three or four evenings of leisure on the winter nights. After tea the man puts of his hat and coat and he goes out. One form a sys: "It is best for all with the young the last the wind have seen everything." And the temptations shad he do but which, I believe, we call the wealth of the last of the last of the last of the last of the winter nights. After tea the man puts of the last of the days of prosperity they think are combined to the seen everything." And the temptations and the merchants, they altell me of the days of prosperity they think are combined to the seen everything which we have nessed have destroyed

man must not merry active in an active at the foot of the hill and together climb to the top.

That is the old fashioned way. and that will be the new fashioned way if society is ever releemed. But during the hard times, the dull times, so many men were discourged, so many men hand othing to do—they could get nothing to do—a pirate bore down on the ship when the sails were down and the vessel wais making no beadway. People say, they want more time to think. The trouble is, too many people have had too much time to think, and if our merchants had not had their minds diverted many of them would long before this have been within the four wails of an insane asyim. These long wanter evenings, be careful where, you spend them. This winter will decide the temporal and eternal destiny of hundreds of men in this audient the way. The same the many homes are peculiarly must receive the same the same the same the same that the same many homes are necessary to the mantel, or, the evenings being so short, soon after gaslight he wants to retire anyhow. But there are many parents who do not understand how to make the long winter evenings attractive take the long winter evenings attractive to tasir children. It is amazing to me that so many old people do not understand young people. To hear some of these parents talk you would think they had never themselves been young and had been born with spectacles on—Oh, it is dolorous for young people to sit in the house from 7 to 11 o'clock at night and to hear parents groan about their silments and the nothingness of this world! How dare you talk such biasphemy? It took God six days to make this world, and the has allowed it 6000 years to hang upon His holy heart, and this world has shone on you and blessed you and caressed you for these fifty or seventy years, and vet you dare talk about the nothingness of this world! How heart, and this world has shone on you and blessed you and caressed you for these fifty or seventy years, and vet you dare talk about the nothingness of this world. T

be as soules." There was not actually be as soules." There was not actually a boy as any of them. Oh, in actually a boy as any of them. Oh, in the approaching holidays, let us turn beck our natures to what they were was a so and the aboy as any of them. Oh, in the approaching holidays, let us turn beck our natures to what they were was a so of the actual to help the actua

Lower down, lower down until, outeast of God and man, he lies in the asylum, a blotch of loathsomeness and pain. One moment he ealls for God and then he cails for run. He prays, he ourses, he laughs as a flend laughs, then bites his nails into the quile, then puts his hands through the hair hanging around his head like the mane of a wild beast, then shivers until the cot shakes, with unutterable terror, then with his fast fights back the devils, or clutches for serpents that seem to wind around him their awful folds, then asks for water, which is instantly consumed on his cracked lips. Some morning the surgeon going his rounds will find him dead. Do not try to comb out or break back bear

THE PRESIDENT'S DUCK SHOOT To-day and To-morrow Will Be Spent at Hatteras.

Norfolk, Va.. Dec. 9.—The Violet with President Cleveland and party aboard was anchored off Roanoke aboard was anchored off Roanoke island all day Sunday. During the night the party went down to Hatteras where two days will be spent. Early Wednesday morning the Violet will start on the return trip, stopping for a day at Rosnoke marshes arriving here Thursday. The president is reported well.

McKeesport, Pa., Dec. 9.-The butt-weld department of the National Tube works has closed down and will not start up again until the first of the year, giving about 3,000 men and boys a month's vacation. The cause of the shut-down is to make repairs.

3.000 Hands Temporarily Idle.

Brakeman's Peculiar Fatality.

Terre Haute. Ind., Dec. 9,-Oliver Tarbert, a railroad switchman, was instantly killed vesterday in a his hand he was passing an oil tank box car, when an explosion occurred which sent his body fifty feet into the air.

The Gold Reserve Increased.

Chicago. Dec. 9.—During the past ten days the gold reserve has been in-creased \$200.000 through the Chicago sub-treasury by money received from country banks.

Capt. Bassett's Condition,

Washington, Dec. 9.—The condition of Capt. Bassett, the venerable door-keeper of the senate, is unchanged to day. He is very feeble.

Oldest Active Steam Englad.

An old Newcoming engine near Bris tel, England, is perhaps the oldest steam engine now running. It seems to have been built about the year 1745. to nave been built about the year 1745, according to Engineering, and is still employed about five hours a day for pumping water from a coal pit. The cylinder is 5½ feet in diameter, and the piston has 4 stroke of 6 feet. The the piston has d stroke of 6 fest. The engife has a beam 24 feet long and about 4 feet one that the following the discount of the feet of is now taken from some boilers in a neighboring establishment, the presneighboring establishmen: the pressure being reduced for this engine to 2½ pounds. The indicated horse power is only 52%. The old man who attends is only 52%. The out max to the engine has driven it since he was a boy, and lits father and grandfather
