L. A. Burrows for the past week has been distributing a catalogue containing over 2,500 periodicals. These catalogues were printed for agents' benefit throughout the country. He has now decided to give them direct to the subscribers, thus giving them the benefit of prices heretofore given only to agents on all periodicals, both papers and magazines. This should be appreciated by all, and if you have not received one as yet, please call at his drug store and get one. It will save you money.

Dr. Lewis is not an advertising agent for any clothing house, and any Andover people who may attend will doubtless hear an interesting address descriptive of one of the most interesting portions of "the emerald gem of the western world."

OUR POLICY.

We operate our store on a determined policy of fair, square dealing, backed by resources and ability. This means that we give the customer the benefit of the lowest prices every time. We do not slaughter our goods, nor sacrifice any special line to bolster up any other, but purchase carefully, buy closely and are thus enabled to sell on narrow margins of profit. We have won a reputation for reasonable prices that we intend shall stay with us. It pays you to trade here because here is a fixed, honest system of value. Before you buy investigate us.

NEW CUSTOMERS

Are coming to this store every day—people who haven't been in a habit of buying their goods in this place. Words of praise are daily heard that there is a house here that has nerve enough to run their business as it is run in all the large cities and that keep a stock that is far beyond any ever gathered here. We want everybody hereabouts to come and see this great gathering of new Fall Goods whether you wish to buy or not.
