IVORY SOAP PASTE.

In fifteen minutes' time, with only a cake of Ivory Soap and water, you can make in your own kitchen, a better cleansing paste than you can buy. Ivory Soap Paste will take spots from clothing;

and will clean carpets, rugs, kid gloves, slippers, patent, enamel, russet leather and canvas shoes, leather belts, painted wood-work and furniture. The special value of Ivory Soap in this form arises from the fact that it can be used with a damp sponge or cloth to cleanse many articles that cannot be washed because they will not stand the free application of water.

DIRECTIONS FOR MAKING .- To one pint of boiling water add one and one-half ounces of Ivory Scap cut into shavings, boil five minutes after the Soap is thoroughly dissolved. Remove from the fire, and cool in convenicut dishes (not tin.) It will keep well in an air-tight glass jar. Depyright, 1997, by The Proctor & Gamble Co., Cincinnati.
