Butter must be sweet and clean. That is the first requisite. It can not be perfectly sweet unless the place in which it is made and all the utensils used in its manufacture are perfectly clean.

The old rule was: "Do not use soap to clean the churn"—this referred to sticky rosin soaps. Ivory Soap can be used freely; it is the best for creameries or dairies, because it rinses easily and leaves

neither odor nor taste. The vegetable oils of which Ivory Soap is made, and its purity,

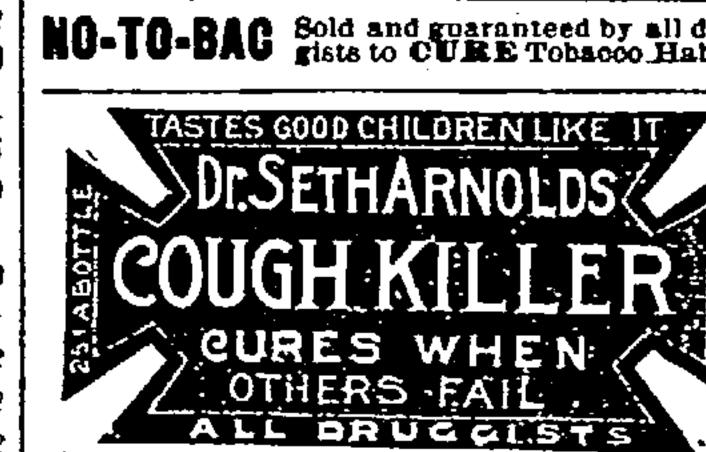

fit it for many special uses for which other soaps are unsafe and unsatisfactory.
