How to Drink a Farm

My homeless friend with chromatic nose while you are stirring up the sugar in a ten-cent glass of gin, det I me give you a fact to wash down with i You may say you have longed for ! years for the free, independent life of the farmer, but have never been able! o get money enough together to buy; a farm. But that is just where you are mistaken. For some years you have been drinking a good, improved farm at the rate of a hundred square. T 🚗 feet a gulp. If you doubt this statement figure it out yourself. An acre of land contains 43,560 square feet. Estimating, for convenience the land at \$48.56 an acre, you will see that it brings the land to just one mill per square foot. Now pour down the liery dose and imagine you are swallowing a strawberry patch. Call in five of your friends and have them some day and see how long it requires to swallow a pasture land to feed a
