VOLCANCES IN MARYLAND,

"ove to Be the Oldest Rock Forms", tion in the United States. Prof. Philip R. Uhler gives an acunt of a discovery which he made in the western Maryland mountains, say, the Baltimore American. Three peaks. the principal one named Buzzard's, Knob, crown a plateau about six miles from the city. It was for Prof. Uhler are in fact volcanoes, and that they

are the very oldest type of volcanic rock that is found in the United States. These peaks are of a different form from volcanoes like Vesuvius. In the 'latter form of volcano molten lava and stones are forced up by superheated steam, leaving a deep hole, but these craters in western Maryland the whole mountain was originally in a molten condition and the top crust was 1 forced upward in a dome-shaped form, and such lava as did escape was forced out in vents at various places. The volcanic rock of the region is metalbearing, and speciments of gray, green and gold copper were found by Dr. Uhler. The domes of the craters were somewhat elliptical in shape.

In Mountain Climbing. The highest point at which climbers have stayed for any length of time is 20,992 feet, on the Himalayas, where an exploring party painfully stayed for six to speculate upon. The preciated by the farmers and threshers weeks in 1902. Higher still, at 21,916 feet, is the extreme point of Mrs. Bullock Workman's ascents, the greatest height reached by a woman. Mr. Bullock Workman kept on to a point 23,-393 feet high, which is the greatest height reached by any mountain climb-The altitudes reached by Mr. and, Mrs. Bullock Workman were above those at which M. Berson, the aeronaut, began his artificial inhalation of oxygen. At 26,240 feet the aeronauts in general begin the continued inspiracaution was responsible for the death for his title, in a Championship Wrestling Match, at Andover Opera House, 208 feet, and their companion, Tissan- Saturday evening, Oct. 14, for a side bet of \$100. > His Muscles Obey Him. Medical circles in Vienna are being dified by some remarkable examples muscular action which a man aged about 30 years is showing. His power leemed incredible. He can contract his abdominal muscles so as to show an indulating movement massing upward and downward; his larynx goes up and down without the aid of the tongue; and he can even cause his pupils either to contract or dilate thus showing t. influence of will over so-called invo

Oxygen to Cut Metala. Diamond may cut diamond, but oxygen cuts metals, at least at Liege. There there is a daily exhibition of the Jottrand process for cutting metals by a jet of oxygen. The apparatus consists essentially in blow pipes, moved ' along a guide in front of the metal plates or part to be cut at the rate of about six inches per minute. ... One of the blow pipes delivers an oxyhydrogen flame, which raises the metal where it is to be cut to a temperature corresponding with dark red. The following blow pipe delivers a jet of pure oxygen which enters into combustion with the hot metal, thus producing a clear channel like a saw cut about one-eighth inch thick, the re-
