This is the lesson that I would point out and enforce: That the saddest and last symptoms of national decline are found in womanly folly. Corruption may spread far and wide and demoralize the communit, but there is hope for both the church and the state so long as the wives and the mothers, the daughters and the sisters retain their MORAL INTEGRITY. When that is gone, all is gone.

Thousands of our business and professional men are today devoting tractive as possible the grounds around themselves to the one object of gaining the wherewithal to cut a dash ' in society and keep sunshine in the house by the unlimited indulgence, of a fashion pampered woman's fancies.

This extravagance, so wid spread and alarmingly on the increase, is, all in all, THE GREATTST MORAL EVIL WHICH TODAY AFFLICTS OUR NATION, and, while it is true that the privileged classes can afford to do these things, the splendor of which our extremely wealthy are -so -extraordinarily fond, their doings, which A number of the friends of W. People laughed when told that a man could talk over a wire to a friend ten miles away, and now the telephone permits him to do it when the friend is a thousand miles away. We laughed when told that telegrams could be sent without wires, but now it is done

On the face of things, it SEEMS improbable that we shall be able to travel through the air at any great rate of speed, but the gasoline engine, which has such an unlimited future, will solve the problem. GAS BAGS WILL DO FOR GENERAL ASCENSIONS, BUT THE FUTURE, OF AERIAL NAVIGATION RESTS WITH THE USE OF OR WITH THE AEROPLANE.
