## CIGAR STANDS!

## Here's An Example

of the way the National Cigar Stands save the smoker money

Here's a full, plump Perfecto, made by hand of selected seed-and-Havana leaf. It is just such a cigar as is sold in the average cigar store at 8 for 25 cents; a fragrant, mild, smooth combination that pleases more smokers than any other class of cigars known to the trade. This is i's name and label—both will be famous:

## Its price, (in Perfecto or Bouquet size) is FIVE CENTS STRAIGHT

This 3 for 25-cent quality at 5 cents is a good example of the result reached by this combination of 2,000 drug store cigar stands into a single, compact, powerful buying concern. It cuts out profits and expenses that have heretofore nearly doubled the cost of cigars. National Cigar Stands now give the same qualities often at half what they used to cost, always for less.
