J. M. BRUNDAGE Report of Actual Conditions Published Quarterly.

TO HAVE A CHECKING ACCOUNT AT

There is reason in it. It is wise and it pays. You can pay your bills with checks which we return to you. Each check is a receipt in full for every dollar you pay out. Your check book shows just where the money went.

This is a good system of bookkeeping. You can have bank book balanced at any time; it should be balanced at least once a month.

Sometimes your memory fails you-you forget whether or not you paid a certain bill at the store. If you kept a checking account and paid your bills by check, you can turn to your checks, they will show the bills you paid, the date and the amount.
