Report of Actual Conditions Published Quarterly' TO HAVE A CHECKING ACCOUNT AT THE BANK IS

Each check is a receipt in full for every dollar you pay out Your check book shows just where the money went. This is a good system of bookkeeping. You can have your ■ bank book balanced at any time; it should be balanced at least

ouce a month. Sometimes your memory fails you-you forget whether or not you paid a certain bill at the store. If you kept a checking account and paid your bills by check, you can turn to your checks, they will show the bills you paid, the date and the amount.
