Your Money Goes?

Perhaps you do not know it, but most people spend a considerable sum for things they do not need—for things they can do without.

If you had a checking account and paid your bills by check, you would have a complete record of every cent. You could tell how much you spent for trifles during the year.

It's a good plan to have a record of all money you pay out.

Money to Loan on Approved Collateral. Interest Paid on Special Certificates of Deposit.
