BEATEN BY A HAIR.

United States Senate. When Hannibal Hamlin was speaker away back in the forties of the last highly sensitive in regard to it, particular hair in its place. One day lin, in the innocence of a good ar doke loving nature, sent for this gen-

*leman and, looking fixedly at his "You insult me, sir! You insult me!" replied the member, with unexpected to reason or explanation, he left the speaker's desk and returned to his seat.

gentleman was a member of the upper whom he believed he had been insulted. "Lives of Twelve Illustrious Men."

THE FIRST AUTOMOBILE. It Was Made In 1572 and Was Work-

ed by a Coiled Spring.

chauffeur, "was made by Johann Hau stack of Nuremberg in 1572. Its mo-Tive power was neither oil, steam nor electricity, but a coiled spring. eled after it were built by William Murdoch, James Watt, Nathan Read

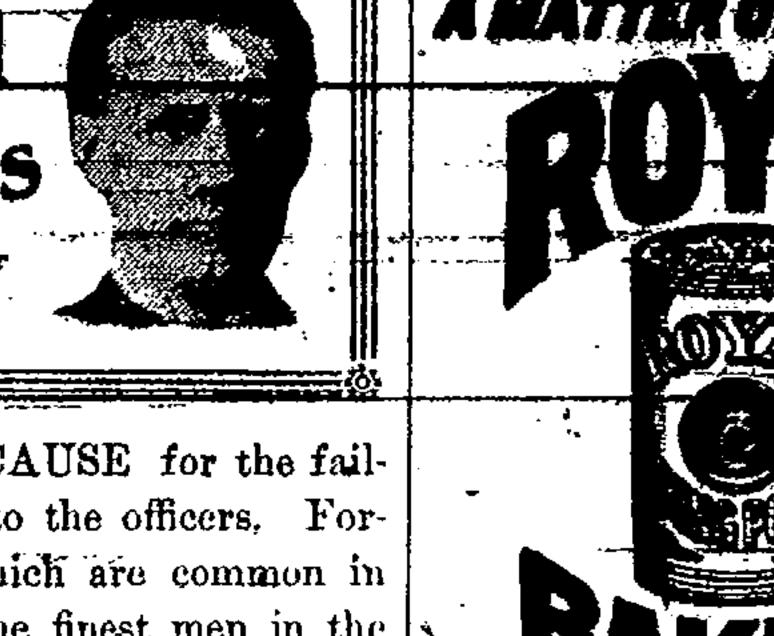

and Birmingham. "Several steam carriages plied for beginning of the nineteenth century, but they were so slow, noisy and heavy that the people did not take to them. "The first modern automobile was "built by Amadee Bollec in 1873. Bollec exhibited his car in Vienna and in tomobiles, by about 1890, began to appear in the jokes of the day. They had taken their place. But it was not until the annual cup races began in France fin 1894 that the automobile became a really popular institution."—New Or-

leans Times-Democrat. Bowdoin College. Bowdoin college (pronounced Bod'n)

was founded at Brunswick, Ma., in man in high standing, who died in 1790. His son, James Bowdein, a genminister to Spain, 1805-08, gave to the death in 1811 he willed to the institution a number of valuable gifts-6,000 acres of land, a library of several thousand books, a collection of fine paintings and an assortment of scientifi has preserved its high standing from

Seven In Human Life. of the law: at four times seven he is in full possession of his strength; at five comes grave and wise if he is ever destined to; at seven times seven he is in his apogee, and from that time he begins to decay; at eight times seven he is in his first climacteric, at nine times seven he is in his grand climacteric, and at ten times seven he has reached the allotted span of life.

A Tough Cilcken. A New Orleans man has proved that a chicken can live twenty-three days prehensive. without food or water. He makes afbox was in the cellar of the new house, immorality is to lie about shaving been forgotten by the former tenants. Twenty-three days later the truth. scook was moved to explore the cellar 'und discovered the chicken, emaciated.'

banks begin right there. One of the finest men in the world, so all who knew anything about him said, put \$50, 900 of his own money into a bank and became its president. He was young, immensely popular, capable and honest. Persons whom he Mannibal Hamlin's First Try For the knew, men of millions, were going into Amalgamated Copper when it was 20 or 30 points above par. They said that Standard Oil was to be the Maine house of representatives, duplicated in red metal and all that sort of thing. Owners of railroads and factories, they were no cheap prophets. The young banker teletain gentleman of faultless attire, graphed an order to a broker in New York. Just at that time \$2,700 g manners, good address and of money due to him was sent west from that city by mail. Amalga-"His hair was very thin, and he was mated went down a few points. THE BROKER CALLED FOR HIIS MARGIN. The banker, his money in a letter coming to him as | fast as steam could carry it, took \$2,700 of the bank's funds, which would be replaced, he thought, within forty-eight hours. MARGINS NEXT DAY. More the day following.

There is no use to dwell on the story. The shortage amounted t smooth and polished pate, said with a \$190,000. A number of the directors were in Europe. One of those who were at home fairly flew to Washington. "For God's sake," he by a large employment agency from a tell you that you've got one of the said. "give us time to save the bank. We will meet the embezzlemen and no depositor shall lose a cent." I could have filled the atmosphere general office assistant.

out that way with lightning and all kinds of trouble, but I waited. THE BANK WAS SAVED, BUT THE DOOR OF THE PENITE TIARY CLOSED BEHIND ITS RUINED PRESIDENT.

Now, the point is this: Passing over the fate of the young man and | men are keen eyed, very sharp and | I When Mr. Hamilin became a candil gladly admitting he was honest at the beginning, the point is that he often influenced by little things. Many a worthy youth has been sent date for the United States senate this was "it" in that bank, the head and front of everything, and could loan away when applying for a situation himself money by one process or another OUTSIDE OF THE because of some telltale in his dress or the matter of dress that their good ar tively refused to vote for the man by and business infirmity of directors in general. I go so far as to say He was defeated for a seat in the that no officer can rob a bank unless his directors are either his much to do with one's advancement, senate—by a hair, but when the next DUPES OR CONFEDERATES. The only way to stop crime is to vacancy occurred he was elected.— make its commission IMPOSSIBLE. Government supervision banks, through its comptroller of the currency and his examiners, can come the handicap of an unfavorable only detect a wrong act AFTER IT HAS BEEN DONE. The | Yorkers would forgive anything quickdirectors of banks must be the forces of prevention.

THEY ALONE ARE TO BLAME-WHEN A BANK IS LOOTED BY "The first automobile." said the TRUSTED OFFICERS. I SAY THIS WITHOUT ANY QUALIFICA TION WHATEVER.
