FOUND DEAD AT SPRING

EDWARD J. DOUGHERTY, ONE OF ANDOVER'S BRIGHT YOUNG MEN DROPPED DEAD MONDAY EVENING.—DRANK TOO MUCH COLD WATER WHEN HOT.

Drinking too heartily of ice cold spring water when he was over-heated by hard work in the boiling sun, is supposed to be the cause of the sudden death of Edward J. Dougherty one of Andover's prosperous and well thought of young men, last Monday afternoon.

Edward Dougherty worked the farm of his father-in-law, David Corwin, two miles west of Andover. Mr. Corwin and he were doing a large haying without other help Monday afternoon Mr. Corwin was not feeling well enough to work, so Ed. was in the hayfield alone. He had a lot of grass cut and cured and was rushing to get it bunched up early in the afternoon so he could come to Andover with a beef creature in the evening.

It is supposed that he had nearly finished the work and had hurried to a spring over in the pasture for a drink of water. After drinking heartily, he had apparently arose and started back, and when he had only gone about a rod from the spring dropped dead.

Late in the afternoon, being worried because he had not returned, his wife and Mr. Corwin went to look for him, and it was almost night before he was found. Neighbors and friends in the immediate vicinity hearing Mr. Corwins scream for help when the body was discovered, came from all over the neighborhood, and medical assistance was soon there, but nothing could be done. He had been dead a number of hours when found. Coroner Ayers of Alfred pronounced the cause of his death paralysis of the heart, caused by over-heating.

Edward Dougherty was a model young man, of good habits and well thought of by every one who knew him. He leaves besides his wife, Mrs Carrollotta Corwin Dougherty, a father and mother, Mr. and Mr. Patrick Dougherty, and ten brothers and sisters besides a large number of relatives and friends.

Funeral services were conducted at the Blessed Sacrament church yesterday morning, Rev. J. J. Sheehy officiating. The remains were laid at rest in St. John's cemetery.

Drowned at Wellsville.

Eugene Dudley, six years of age, the adopted son of Peter Dudley of Wellsville was drowned Monday afternoon in the Genesee river. The little fellow was in wading and ventured too far out in the stream. Before help arrived he had sunk from sight. After repeatedly diving, without results where he went down, the searchers followed the river some distance down stream where the body was found near the mill race.

Pure Food For Poultry and Cattle

Dr. H. W. Wiley of the Bureau of Food and Drug Inspection of the Department of Agriculture is investigating a number of brands of cattle and poultry foods now being sold in our markets, which it is claimed contains enough poisonous weeds, among which are named corn cockle and jimson weed, to have a bad effect upon the cattle eating it.

W. C. T. U.

The Womans' Christian Temperance Union will meet with Mrs. Mourhess, Friday afternoon, July 31. Officers for the coming year will be elected at this time and other items of business will be transacted. All members are urged to be present.

WORKING FOR A NEW PARSONAGE

ANDOVER METHODISTS ARE RAISING FUNDS FOR THE CONSTRUCTION OF A NEW PARSONAGE.

Plans are being perfected for the building of a new parsonage by the members and friends of the Andover Methodist Church. The purpose is to build on the site of the present parsonage, but on an improved plan. There seems to be a general and hearty approval of the purpose to build a modern and commodious house for the use of the pastor and his family.

Not all of the plans are yet perfected, but it can be stated that the building will be of brick and tile. This will make a perfectly dry, and so far as the walls are concerned, a fire proof building, and add in other ways to its value.

Rev. J. W. Wright, the pastor, is now taking subscriptions. Mrs. E. B. Loxley heads the list by giving five hundred dollars. Mr. Wright hopes the people, especially the members of the church and congregation, will come forward and show their interest by making liberal subscriptions. He desires to find at least ten men who will each give one hundred dollars or more. This is especially important, as it is necessary to begin the work of building soon, so that the house can be finished and the pastor and his family settled in it before cold weather.

Advertised Letters

For week ending July 25, '08:
Mr. John Gremes,
Mr. Wm. Bowan.

WILL CONTINUE WORK

Anti Race Track Legislation Hurts, But Bureau of Breeding of the Jockey Club Keeps its Nerve.

Not withstanding the fact that the anti-racing laws passed by the last Legislature have affected the sport most injuriously and, in their consequences, have been but little removed from being entirely confiscatory of the property and charter rights of the racing associations, the Bureau of Breeding of the Jockey Club has decided to continue its work.

It does this at a heavy expense and exclusively because it believes that the enterprise will be of lasting benefit to the agricultural interests of this state. Last season and in 1906 the foundation was only begun and the Bureau is peculiarly anxious that the work should continue until at least there would be tangible, practicle evidence of the value of the thorough bred blood in lines wholly apart from racing. It embarked in the project with the sole idea that through the agency of the thoroughbred, the horse product of New York State might be so improved that in every division from the utility or farm horse to the hunter and high class saddle horse, this commonwealth would lead every other in the Union.

The Bureau of Breeding has conviction that this result will be attained and, to aid in its achievement, as well as to attest its appreciation of the manner in which the agriculturists have taken advantage of the opportunity afforded them, it will maintain the thorough bred stallions at the stations assigned for the present season.

It is to be sincerely hoped that the citizens of Allegany County will show their appreciation of the Breeding Bureau by making the various prizes offered by the Breeding Bureau and its associates the events of the approaching Fairs in this county.

No lemons at the Wellsville Fair and Races.

GAME WAS LOST AT WELLSVILLE

ANDOVER BASE BALL TEAM GOT RATTLED AND LET THE LYCEUM TEAM OF WELLSVILLE TRIM THEM TO THE TUNE OF 2 TO 6.

The Lyceum Base Ball team of Wellsville defeated the Andover Base Ball team in a hotly contested game at Wellsville, Wednesday afternoon. Score two and six.

This is the first game the Andover boys have played away from home this season and it is not to be wondered at that some of the fellows got stage struck.

Andovers' pitcher, Will Perkins, did fine work. He is a whirlwind in the box and fanned out more men than the crack twirler of the Lyceum team. He put out seventeen men in the game because they pounded the air instead of the ball. If he had had the support he should the game would have been easily won.

Some of the Andover players seemed to think they were throwing stones to see how far they would go rather than balls to bases. The game for the first few innings was a good one but the Andover boys fell through themselves with stage fright before it was much more than half played. Capt. Bettinger says he is going to have James O'Leary make a lot of hoops to hold the boys down before the next game.

The return game will be played in Andover two weeks from Saturday, when our fellows will make a desperate effort to regain their laurels.

The Lyceum team are a nice bunch of clean young men to play with, and they put up a hot game of ball. They have won games from nearly every team in the county this season, but they found that the Andover boys were not so awfully easy as they had immagined, and had to earn every score by hard work.

Don't Knock

A weak little chick with its weak little bill can break its way out of an egg with comparative ease. Those of you who have tried cracking an egg on your knuckles wonder how the chick does it. Scientists have a very simple explanation for it, which is thus: The little chick knocks from the inside and the arrangement of the particles that make the shell are such that they are easily driven apart from the inside but are wedged together when struck from the outside. It's the same way with a city. The knocks from the outside have little effect, but even light taps from the inside are dangerous. It's the knocks at home that hurt a city. Don't knock; boost instead, and there will be no knocks from the outside.—Ex.

Cuba Cheese Quotations

Two thousand boxes of cheese were sold on the Cuba market last Wednesday at a ruling of 11½ cents. The ruling last week was 11¾.

Unusual Case

Manly Adams of Cuba is suffering from the effects of paris green poison. Early one morning he put paris green on the potatoes growing in his garden, using a bellows, which later was found had a small hole in the leather which threw a fine dust of the poison in his face. In a few hours he was taken violently ill with cramps, his left side was paralized and for a time his condition was critical. At this time he is improving but the paralysis has not been entirely overcome.

T. J. Lynch Seriously Ill.

T. J. Lynch was taken seriously ill with acute appendicitus Monday evening, while at the home of his wifes' brother, Ed. Dougherty, called there by Mr. Dougherty's sudden death. Physicians say that what was possible to relieve him, but it was found necessary to take him to Hornell for an immediate operation Tuesday morning. He is doing nicely at this writing.

Death Caused By Fright

Mrs. Frank Orcutt was sitting upon the veranda at her home in Belfast last week Wednesday when a bull which had escaped from the pasture suddenly appeared near her side. Mrs. Orcutt fainted from the shock and was unconscious nearly all the time until her death a few hours later.

She was fifty-five years of age and leaves a husband and several children.

Hon. Sherman Moreland Will Speak at the Harvest Home.

The Harvest Home committee has been fortunate this year in being able to secure Hon. Sherman Moreland of Elmira, N. Y., as a speaker. Mr. Moreland was for two years the majority leader in the Assembly and is a gifted orator. His address to be delivered at the Village Park on August 12th will be well worth hearing.

Woodmen Notice.

A regular meeting of the Andover Camp, Modern Woodmen of America will be held at G. A. R. Hall next Monday evening, August 3. A large attendance is urged, as matters of importance will be considered at that time.

Just Preaching.

A clergyman was recently telling a very interesting story to one of his parishoners and little daughter, when the child turned to her father and asked:

"Papa, is that really so, or is it just preaching?"

Surprised.

The members of Andover Rebekah lodge gave a surprise visit to Dr. and Mrs. W. H. Loughhead at their pleasant home on Greenwood street Wednesday evening.

Burdick Sheldon.

Miss Adelaide Burdick and William W. Sheldon of Alfred were married July 22nd, at the home of the bride's parents, Mr. and Mrs. O. D. Burdick, in East Valley.

Cannon Brothers
