Constables. LEROY BRUNDAGE, CHAS. BAKER,

EDWARD CABLE. HON. CHAS. A. TOWNE FOR WOMAN SUFFRAGE

At the recent Mass Meeting held in Cooper Union, New York City, I which nominated Justice William J. Gaynor as independent candidate for the Mayoralty, the Hon. Charles A. Towne, Ex-U. S. Senator from Minnesota, and former candidate for Vice President of the U.S., used the following significant language in the nominating speech:—

"Deeply significant of the moralmotive so noticeably active in Judge Gaynor's candidacy is the interest manifested in it by thousands of public | spirited women. It is through this portal of the moral meaning of erucial political controversies that female citienship is destined to come finally into its electoral heritage. It is possible that we men, puffed up in our own conceit and purblind to our own and the general welfare, might succeed in continuing to deprive ourselves indefinitely of the service in our community affairs of that prudence, that conservatism, that patience, and that loyalty which we gladly recognize as the main guarantees of domestic happiness and the chief reliance of domestic economy; but we shall not be able much longer to resist the importunities of that service proffered in the language of sentiment with the sanctions of mo ratity and justice.

Vainly has woman asked for a voice in the representative enactment of the laws that govern her; in the levy of the taxes that she pays; in the expenditure of the money she helps to earn. Men have turned deaf - ears to the plain business common sense of the request for the ballot both on behalf of the hundreds of thousands of women that own property and on behalf of the millions of women that toil. But the argument has become a plea for justice, for fairness, for right. The moral aspect of the question will prove irresistible and will pave the way for its economic acceptance, and when once the barriers of our self-sufficiency shall - have fallen befere this supreme assault, we shall soon remember them , but dimly, like other outgrown superstitions, and flind it scarcely credible that they once existed."

REFORMATION BY SUGGESTION.

Down in Brooklyn there lives a boy who was thought to be incorrigi-Recently this boy was turned by the authorities over to the custody of Dr. Siegfried Block, for treatment all on the line of Hypnotic suggestion For two months the treatments or rather the experiment was carried on with remarkable results. For recently when the physician and the boy reported to the Court. It was proven, that the boy had been changed from a good for nothing, to a good for something, industrious lad, and there were or had been no evidences of a recurrence of his crimnal prochvities.

The Doctor said it was hypnotic suggestion that did it, The Court admits there has been a change in the boy for the better, and the bo. says, with characteristic boyish frankness, "the doctor tells me to go to work and to be good, and I am doing it," that's all there is of it." It is a wonderful indication of the power of mind over mind.

Of course no one can read of an incident but it begins to multiply in its workings and the writer wondered how far such a work or methods , could be carried and if used rightly what a great good would accrue to many communities. If somebody would only hypnotize some of the grunters, cracker barrel-sit-around-the stove always- find-fault-with-everything sort of people and could get them to work. Wouldn't it be a great thing. Rather think that some organizations would try it and stir up lazy members, and then the political fellows they would have everybody vote by editor too, might use it in getting new subscribers and making the old ones pay up, Be-great, wouldn't it?

It also might be used if its use became general, to keep men from booze, What a lot of happy women there would be, and some homes would be changed from misery to happiness.

After all the fight is carried on by the individual himself and the man doesn't need any reformation by suggestion,

There is a modesty that costs much, its the modesty that prevents is your keeping your name before the public for business reasons.

How about those Christmas goods, Mr. Merchant, are you going to let the people know that you are getting in line for a big business?

WHY YOUNG MEN ARE NOT ENTERING THE MINISTRY

A good deal has been written and said about the failure of young men choosing professions, to choose the career of a minister of the gospel. Perhaps a sufficient reason can be found in the statistics given in the Teeple-Green Drug Co. Methodist Year Book, Evidently the writer has made extensive inquiry into the salaries paid to preachers in 124 conferences which supports. Without going into the details of the report it will be found that of to A. A. Chisholm, of Treadwell, N. 15.026 ministers.

the 15,026 ministers, over 11,000 draw salaries not to exceed an average Y., now His reason is well worth O. of \$1,000 per year, which is less than the salary paid the mechanic, book- ed from indigestion, torpid liver, conkeeper or the men in any other one of a dozen or more callings in life. stipation, Hence it is not far to look for the reason, and if a little thought was giv- sleep, had no appetite, nor ambic en the matter, there are ministers to-day not a thousand miles from the grew weaker every day in spite w place where this paper is printed that are working giving their lives and Electric Bitters. The their sacrificing spirit as they go around about their duties. a financial point of view, when the day laborer, or the factroy hand, can get in his pay envelope each week more than the weekly income of the Monroe Wheeler of Bath, who is average minister, and then there isanother point young men consider president of the company, will appear R. JOHN COMMON, the pay, from the factory or other employer comes with the weeks close at the company's counsel at the hear- 1 while the preacher often has to wait upon the will of the people, or go | ings. out and collect his own salary sometimes long after it is due.

When the men and women put as much business into the conduct of $t \in \mathbb{R}$ the church affairs as they put into their private business deal, the church will be in better shape, and be a more inviting field for the young man ney Remedy. who in his heart wishes to do something for humanity but does not care stops the pain and the irregularities, to make all the sacrifice.

THE BOILING POT.

The political pot is boiling furiously, in New York City, and when we stated last week it would be interesting to watch the outcome, we realized a little of what was in store for close observers, but we can emphasize it with big capital letters. New elements have entered the game. Tammany is in a fit of excitement and will need to put up the stiffest ____ campaign she has put up in many a day, and it will cost the tiger a pret. The Kind You Have Always Bought ty penny before the campaign closes. Hearst, (the yellow journal editor,) has got into the fight and made it a three cornered affair, and he is a signature of has fill takes force to be reckoned with. Tammany knows that, and the mud slinging has commenced. Hearst will give them all the run for their money and the outlook at the present writing is that Tammany days are in the shadow. However as we have said before it will be of interest to watch!
