TO LESSEN MINE DANGERS.

Mitchell, Former Coat Miner. "Coal mining is the most hazardous industry in America.' John Mitchell, vice president of the

the United Mine Workers and who i dime he was thirteen years old until made this statement in com- Signature of Charly little nenting on the disaster at the mine I the St. Paul Coal company at Cherry. Il., on Nov. 12, in which nearly 300 men lost their lives.

Mr. Mitchell suggests several safety devices. One is the installation of telephone systems in mines. Another 1 ' the laying of pipes throughout the gal. . ' leries and workings through which air i or liquid food could be pumped in case i faccident. A third suggestion is that mines be fitted with air tight compartments communicating with the surface i | which would serve as havens of refuge ,

The Cherry mine disaster had its ori- i | giu in a pile of hay used to feed mules . stationed in the mine. A careless miner threw a torch upon it, and the timbers of the mine later caught fire. ' suggest means by which lives thus lost l might have been saved." said Mr. ped with telephones throughout their workings it would be possible for men know the location of the place in which
