

MOTHER "DAGO" COMMITS MURDER

Antonio Magliocca Stabs His Foreman, I. Antonio, Who Was Trying to Settle Quarrel--Dies Next Morning.

Sebastiano Iabono died at the Cuba Hospital Tuesday, March 22nd, from a stab wound in the back of the left thigh and Antonio Magliocca is held by the county authorities on a charge of murder in the first degree. Both are Italians and were working on the Erie Cuba—Hunts cut-off near Cuba.

They, with five, other Italians, lived in a box car, at "Box Car Camp." Monday evening on returning from work they indulged quite freely in beer and between ten and eleven o'clock, two brothers, the defendant, Antonio Magliocca and Anunciato Magliocca quarreled. Anunciato, who is the older brother, procured a stick and Antonio unlocked his box and took out a knife, warning everyone to keep away from him under penalty of death. A scuffle followed. Iabono who was foreman of one of the gangs of Italians, interposed to separate the combatants. About five minutes later, Iabono sank to the floor crying, "I have been cut." He had received a stab wound in the back part of his left thigh, fully six inches deep, severing a femoral artery. The wound was roughly bound with a towel and some of the Italians went for a physician, but no medical help was secured until five o'clock Tuesday morning, when the dying man was taken to the Cuba hospital.

HORNELL'S Y. M. C. A. SITE. Will Erect a Fifty Thousand Dollar Building.

The building committee of the Young Men's Christian Association has selected a site for the new \$50,000 building to be built in Hornell. The site is the property of the late Dr. John S. Jamison of Center Street. The lot is 160 feet deep and has 100 feet frontage on Center street.

VILLAGE APPOINTMENTS.

Following are the new appointments of the Village Board of Andover:

Clerk, Andrew Fuller.
Street Commissioner, C. E. Hann.
Night Police, Jett Blodget.
Health Officer, F. M. Bassett.

Iabono lived until 10 a. m., conscious only a part of the time.

Coroner W. O. Congdon of Cuba performed an autopsy on the body Tuesday afternoon and found a few bruises about the dead man's head, which however, had not caused serious injury. Death was due to hemorrhage following the wound so deeply inflicted with the knife.

At a hearing before District Attorney Rice, which began at one o'clock, Tuesday and adjourned about 2:30 Wednesday, p. m., Antonio Magliocca was held on a charge of murder in the first degree and nine other Italians were held under \$100 bail, each, as witnesses to appear before the Grand Jury on Tuesday, March 29. The principal witness is Gelardo Iabono, a nephew of the dead man. He testified to having seen the defendant strike Iabono with the knife and inflict the wound which caused his death.

Magliocca was taken to Belmont on train 28 Wednesday night and lodged in the county jail. If an indictment is found by the grand jury, District Attorney Rice will endeavor to secure a special term of court in April for the trial.

Alfred University Agricultural Special

For the New York State School of Agriculture at Alfred University, Alfred, N. Y., the Erie Railroad will run free, on April 12, 13 and 14, an agricultural special train, to be called the "Milk Production" special.

It will run from Addison to Cuba on April 12, from Cuba to Jamestown on April 13, and from Jamestown to Dayton and Little Valley on April 14. At each stop the faculty of the school will give up-to-date information on the production of milk in lectures of 45 minutes duration. Cows will be carried on the train for demonstration purposes.

One of the objects of the Erie Railroad in running these trains, in addition to the direct benefit to the farmers is to help in making the colleges and schools of Agriculture on or within reach of the Erie Railroad, better known and their purpose more fully appreciated, so that from these centers of research an increasing stream of young men trained in agricultural science will flow upon the land.

Alfred University, at Alfred, N. Y., on the Erie Railroad, received its University Charter from the State of New York in 1857. Since that time it has achieved a good reputation as a center of learning, and its roll of students is constantly increasing. It has the regular classical, philosophical and scientific courses of study, and it has excellent chemical and physical laboratories.

Some years ago there was established, in connection with the University, the New York State School of Clay Working and Ceramics, and on October 18, 1909, a new school, the New York State School of Agriculture, was opened at Alfred, the Legislature having voted about \$140,000 for the land and buildings.

This new School of Agriculture at Alfred is a splendid structure of modern design, and thoroughly equipped. There is a farm of 23 acres in connection with it. Alfred is located about nine miles west of Hornell, and the new school of Agriculture there, in connection with the University, is quite an acquisition to the territory.

Dr. O. S. Morgan, Director of the school, who will have general direction of the lectures to be given on the Special, is sending out to the Erie Agents for local distribution at the stations where the train will stop, posters and schedules showing the time the train will arrive at the different stations.

The United States Department of Agriculture at Washington, D. C., is sending a representative from its bureau of Animal Industry, to accompany the train.

Lectures will be given in two coaches to dairymen, and in one coach to those persons, women and school students, who are interested in caring for dairy products in the home. At some of the stops, in the latter coach will be given lectures on "The Home Garden." If more people come than can be accommodated in the three coaches, an overflow meeting will be held in the depot or some convenient building, or an outdoor meeting will be given if the weather permits.

At the conclusion of the 30 minute lectures in the coaches, a 15 minute stock scoring and stock judging demonstration will be given from the door of a special stock car. Three dairy cows from the State Farm of the Alfred School of Agriculture will be discussed by experts on stock judging, the favorable and unfavorable points of the dairy type will be raised, and the special merits of the different dairy breeds pointed out.

The lectures are absolutely free. Nothing is sold at the meeting. Special bulletins on Milk Production and kindred topics will be distributed.

GETTING READY FOR THE GAME. Manager Decker Putting Base Ball Grounds in Fine Shape.

Andover is to have a base ball team worth while this season. The "fans" got together recently and organized an association, the Andover Base Ball Association and named the following officers:

President, Clarence Trowbridge.
Manager, F. J. Decker.
Secretary, Lou Bloss.
Treasurer, Harold Brainard.

After looking over available locations for a diamond, the manager made application to the village Trustees for permission to construct a diamond in the Village Park, which was granted.

The next proposition is to raise money enough to fit up a base ball ground. It will take \$250, but when it is once completed it will be a permanent place with no rental. No better proposition could have been figured out and it behoves Andover people to take hold liberally this year and help the boys to a play ground. This is a thing Andover has always needed, and the way seems now open when we can get it if all put their shoulders to the wheel and do their part. The beauty of the whole thing is that it will not have to be done over again if we fit the grounds upon Park lands. Help the boys! It can never be done with penny contributions. Give them an X or a V.

CUBA PATRIOT SOLD.

F. C. Dean of New York, Purchases the Cuba Newspaper of Stickle & Norton.

John W. Stickle, formerly of Wellsville, and Arthur A. Norton, of Belmont, have sold the Cuba Patriot and Free Press to F. C. Dean of New York City. Mr. Dean took possession on Monday and will get out the paper this week. Mr. Stickle will remain in Boston as manager of the Jamaica Plains Printing Co., and Mr. Norton stays in Belmont as Associate Editor and Manager of the Belmont Dispatch.

Mr. Dean is a newspaper man of considerable experience, having owned and edited two prosperous country newspapers. He is a Republican and a number of years has been in the New York custom house, where he has had numerous advancements. The thriving village of Cuba and its many attractions led Mr. Dean to resign his custom house position and come to Allegany county for a permanent newspaper berth. He is welcomed heartily by the newspaper fraternity.—Reporter.

MITCHELL GETS IMPRISONMENT.

Word comes from Belmont that Aleck Mitchell of this place was sentenced by Judge Hooker to six months imprisonment in the Erie County Penitentiary and \$200 fine on the charge of selling liquor. Sentence was suspended on Anson Brewster.

NOTICE

The Board of Education of the Andover High School will receive applications for teachers at their regular meeting, April 5th.

WANT ANOTHER VOTE ON EXCISE

Wellsville Liquor Men Trying to Get Another Election ---The Reporter of Monday Has the Following.

For some weeks past it has been rumored that the liquor interests of Wellsville were intending to make application for a resubmission of the excise question this spring. At the regular election, on Nov. 2nd last, it will be remembered that the vote on the excise question resulted in favor of the granting of drug store licenses only and the defeat of all the other propositions. This means the granting of drug store licenses only after October 1st, next in Wellsville.

Quite naturally the hotel and saloon interests were very much disappointed. They have now applied to the State Excise Department for a hearing to determine whether a new election shall be granted. The hearing is fixed for Monday, April 4th, at Buffalo before a Supreme Court Justice. The town Board were served on Saturday with copies of the petition and affidavits on which these were based.

The principal basis for the request is a collection of sixteen affidavits to the effect that the subscribers were unable to vote on the excise proposition at the November election. The fact that none of these sixteen men made complaint on election day, or at any subsequent time, to the Town Clerk, and apparently did not discover such inability until they were interviewed several weeks later by the attorney or representatives of the liquor interests, tends to somewhat discredit their statements. With a few exceptions they are not a very representative list of citizens. Only four of them are taxpayers to any extent and the entire list paid state, town and county taxes to the amount of less than eleven dollars during the last year.

The voting machines were in charge of town clerk, A. J. Halsey, as usual. No one in our village understands the machines so well, or is as capable to care for them. The Town Board meets tomorrow to consider this application for a new election. It seems entirely possible that the Town Board will feel that the grounds for such application are entirely insufficient and will object to the new election, even if the liquor interests do offer to pay the expenses attendant thereon.

The liquor men of Wellsville fought the issue out at the November election and were fairly defeated. Now they "sneak" and want to try again. Two years hence at the regular election will be time enough. The issue was settled last November to the satisfaction of the public at large and there is no public demand for another vote.

The NEWS for \$1 the year.

LADIES, ATTENTION!

On Wednesday and Thursday, April 6 and 7

Exhibition of a Manufacturer's Line of Ladies' and Misses' Suits, Coats and Skirts

By special arrangement one of the largest manufacturers of Ladies' Garments in America will have a personal representative at our store on the above dates, showing their entire line for the Spring and Summer season. This will be your opportunity to select from a stock larger than most city stores, and the prices charged will be less than you can buy in the regular way at any store, city or country. Come and see the line anyway, whether you buy or not. Garments made to special measure and delivered at any time you say. Do not forget the date---April 6 and 7.

CANNON BROTHERS

"THE GIRL FROM U. S. A."

A new musical comedy drama of unusual brand and gripping interest is "The Girl from U. S. A.," which comes to the Auditorium on Saturday, April 16th. The unravelment of the plot creates a series of mental sensations that reach high water mark at the close of the second act, when thunderous applause and persistent recalls cause the curtain to be raised again and again. The climax comes when the fearless American heroine in a bold attempt to rescue her French girl friend from the clutches of a high Turkish official, finds herself entrapped in the seraglio of that dignitary. When life seems hopeless, the drum beats and martial notes of Yankee Doodle, are heard outside her gloomy prison and the steady tramp of a company of American Jackies heard in the corridor preceded by the crashing in of ponderous gates. Then a glimpse of Old Glory is caught and the eunuchs and their cringing master cower in dismay. Not for many a day, it is said, has a scene of such stirring and blood-firing interest been revealed on the stage. The singing and acting talent of the company is said to be exceptionally strong and the chorus of brilliant singing voices appears in lavish costumes.

DRANK KEROSINE.

The 15 months old son of Mrs. Carralotta Dougherty, while visiting at his grandparents, Mr. and Mrs. Patrick Dougherty, of Elm Valley, Friday, drank a quantity of kerosine oil, causing petroleum poisoning, and acute enteritis. Dr. W. H. Loughhead of this village was immediately summoned. The child was dangerously ill, but is much better at this writing. He will recover.

ANDOVER GIRL TO WED.

The announcement of the approaching marriage of James Skehill and Miss Mildred Carpenter was made at Sacred Heart Catholic Church last Sunday morning. Miss Carpenter's home is in Andover, but she has been employed at the Domestic Laundry at this place for some time. Mr. Skehill is now located at Allegany as station Agent for the Erie—Friendship Register.

HORSE FEED

We call it "Special Chop." It is made of Pure Oats and Corn ---half of each---nothing else. ---There is no better horse feed.

Present price \$1.57 cwt., exclusive of sacks, subject to change of market.

H. H. Williams & Co.
