#### ERIE'S SUCCESSFUL WINTER WORK.

During Snow Storms and Floods Traffic was Handled on Schedule Time.

Under the unremitting efforts of President Underwood and Vice-President Stuart of the Erie Railroad, that road is being brought up to a standard of operating efficiency hardly thought possible for the property some years ago. During the snow-storms of the past winter the Western press was unanimous in commending the Erie management for its ability to keep traffic moving when most other roads were severely crippled.

One of the severest tests which the efficiency of its operating force was called upon to meet was during the recent high water throughout New York and Pennsylvania, in March. At the classification yards at Meadville, Pa., the tracks for a mile and a half were under two feet of water, yet traffic was handled without any appreciable delay or disturbance.

In photographs taken at the time, the engines are seen running through water which nearly reached up to the fire boxes, engines were taken out to their engines in boats, men were wading in water considerably over their knees, switch locks were submerged and floating buoys were used to designate their location. In the face of these conditions, the company handled over 1,600 cars in and out of the yard daily for the four days, during which the conditions existed, and most of the traffic was handled on schedule time. --Wall Street Journal.

#### "THE GIRL FROM U. S. A."

The scenic investure of "The Girl From U. S. A." is said to be unusually rich in effects. Parisian salon, Turkish seraglio and Oriental palace are each realistically shown. The American girl and her equally strenuous American lover certainly "do" things while they are abroad, and following them on the stage is to be absorbed in a maze of splendid kaleidoscopic situations. And don't forget, the musical numbers are said to be simply great, and the large and fine singing chorus looks fairly stunning in a variety of the most expensive and beautiful costume creations ever seen on any stage.

## Murderer Gets Life Sentence

### Supreme Court Findings at Belmont --Twenty-three Indictments Found by Grand Jury.

(From the Belmont Dispatch)

The March term of Supreme court met with the unusual sensation of a murderer pleading guilty. Antonio Magliocca, a twenty-year-old Italian, admitted stabbing Sebastiano Iabona at Cuba on the night of March 21st, and Allegany county has set a new pace for satisfying the demands of justice. Magliocca was indicted by the grand jury on Tuesday of last week. On Wednesday he was arraigned and sentenced and on Thursday, ten days after the commission of the crime, he was taken to Auburn State's prison to commence serving a life sentence at hard labor, which, through good behavior, may be remitted to twenty years.

Magliocca was indicted for murder in the first degree, but District Attorney Rice consented to his pleading guilty to a second degree charge. Annunzio Magliocca a brother of the murderer, who had been detained by the authorities as a witness, was released from the county jail Wednesday night.

The Magliocca brothers were quarreling when Iabona interferred to separate them and in the melee which followed Iabona was stabbed in the thigh by Antonio and died from the wound the next day.

#### Sprowl Gets Maximum Sentence.

Clair Sprowl of Houghton on Wednesday pleaded guilty to a charge of rape in the first degree and was given the longest sentence provided by the statute for the crime, twenty years at hard labor in Auburn, or not less than 19 years and six months, should he earn reduction by good behavior.

Sprowl was given a hearing at Filmore and during the proceedings eluded the officers and escaped. When sufficiently recovered he was brought to the county jail at Belmont.

#### Wellsville Still Housecleaning.

Three indictments for running gambling places in Wellsville show that the people of this town are busy after others than the license places.

Lewis Hepker, John Finn and Edward Kinney are the ones who will answer to the charge before the court.

There was some evidence against others, but the grand jury deemed it not strong enough to find a true bill.

#### Rushin' the Can Ag'in

#### "THE GIRL FROM U. S. A."

The Next Attraction at the Auditorium, April 16.

A brand new attraction of a type all its own, is making a strong appeal to playgoers this season under the catchy title, "The Girl From U. S. A." It is a musical comedy drama of melodramatic tinge in which a vivacious American girl figures prominently in scenes laid in Paris, Constantinople and China. She and her Chicago husband that is to be strike a merry and strenuous gait in righting the wrongs of a pair of ill-fated Parisian lovers and make the power of the American flag felt in Turkish seraglio and Chinese palace. The new piece, which comes highly commended by the press of other cities will be seen at the Auditorium on Saturday evening April 16. A talented company of singers and actors, assisted by a beautifully costumed chorus of fine singing voices are promised in the performance here.

#### PHILLIPS AS A JOKER

Henry Sellheimer, journal clerk of the Senate and secretary of the Erie County Republican Committee, remembered one yesterday which he says took place when the direct nominations investigating committee was visiting in Boston last fall. Assemblyman Jesse S. Phillips, as Mr. Sellheimer tells the story, dined at the hotel Touraine one evening and partook of a dessert the principal part of which appeared to be deliciously flavored whipped cream. It was down on the menu as "Washington Pie."

Visiting another hotel he noticed "Washington pie" on the card and ordered some. To his surprise the waiter brought in a chocolate colored dessert.

"What do you call this?" asked Mr. Phillips.

"That's Washington pie," said the waiter.

"Well, you just take that back and tell the chef that I want George Washington pie and not Brooker T."
