Beautiful Mountains they make any time at all

Always Plenty of Time a month, What's the matter with heretofore, you northern people anyhow? Why luxury of the present? Let tomorlive up to it.

A Wealth of Resources Jamaica I was astonished to learn nations passing through the canal commerce, only one is amendment reads: "The passage The wonderful this act, or anything therein conadaptability of the soil is apparent, tained, shall not be construed The Spaniards introduced the sugar waiving, impairing, or affecting any cane, the yams came from Africa, the rights possessed by the United State Irish potatoes come from the north under treaty or otherwise." and the tobacco, coffee, bananas and in fact everything has been introduced. Even the Royal palm which flourishes to a degree surpassing of the Interstate Commerce Commissthose in Cuba, are nevertheless na-sion granting the request of the railtives of the aforementioned island. With this wonderful fertility, and rates, that there will be nothing short! land selling at ten shillings an acre of an explosion in Congress, much is yet undeveloped.

Tropic Lizards The insect crop in the tropics another subject upon which the Tourist Associations are silent but this has no effect on the insects. In a land where no winter frost ever comes and where the only check + animal and insect lie is the statute of limitation there is of necessity some law of nature to govern or else the human family would be driven out entirely. One of the most useful little insect scavenger is the lizzard Nobody ever molests the lizard and he is legion. Darting out of your pathway,, or wiggling up the ivy vines and peeping in at your bedroom window, he at first gives! Jou a creepy sensation, but after a night or two with the fleas, you will welcome Mr. Lizard as a while the two men traveling to Liver- the serious status of the race proband you will wish there were a for third-class passage including rail-

The Tompkins County Co-Operative | ' Fire Insurance Company

Editor. Andover News:-

So many false and malicious statements are being circulated in some portions of Allegany County in regard to the Tompkins County Fire Insurance Company, which has done a large business here for many years past, that we feel obliged to call public attention to it and to assure our many policyholders that this company is still doing business here and is entirely worthy of their continued support. The company has not sold any of its territory, nor called for the surrender of its policies as has been falsely stated, except in a few cases where an inspection had shown such risks not desirable.

A radical change in the insurance laws requiring it to maintain a much higher reserve fund obliged it to levy an assessment in January last to provide that increase, which was done by the advice and order of the InsuranceDepartment, and when paid in will furnish the full amount required. This reserve fund belongs to the Policy Holders, and only those who continue with the company or join it as new members will share in its benefits. This large reserve fund will make the company stronger than ever and

should commend it to the insuring public rather than condemn; We urge our policyholders especially to give no credence to false and malicious statements circulated for a purpose not necessary to state here. Many who had surrendered their policies for cancellation, on finding they had been deceived, have asked to have them returned.

The Company has felt obliged to make some changes in its agencies in this section of the state, certain agents having proved untrustworthy to say the least.

Dr. F H Ellsworth of Wellsville, now represents this Company in this section as well as in Wellsville and Scio and adjoining territory and we request our policyholders and other prop. erty-owners to consult him in regard to their insurance interests THE TOMPKINS COUNTY CO-OPERATIVE FIRE INSURANCE COMPANY,

R. G. HSPEED, President Organized in 1887. Insurance in force \$39,000,000

IS IT NOT A FACT?

IS IT NOT A FACT that the quality of wooden shingles is becoming poorer every year? IS IT NOT A FACT that it is almost impossible to buy wooden shingles, even by paying a very high price, that will last more than six or

eight years at the very longest? IS IT NOT A FACT that the average wooden shingles which you find for sale at a reasonable price are hardly worth putting on the building? IS IT NOT A FACT that most of the wooden shingles are now shipped a considerable distance and, in order to save freight, a big percentage of the weight is kiln dried out of them, and does not this take the very life out of the wood and injure the shingles very much?

Isn't there considerable waste in using them? Do not very many of them break up, or are they not broken when they reach the consumer? ISN'T IT A FACT that nearly all of the wooden shingle roofs which have been put on within the last ten years, by their very appearance, argue against themselves?

IS IT NOT A FACT that very few shingle roofs but what crack badly during a prolonged dry spell and leak badly when the rain comes? Should it not be acknowledged as a

wooden shingles are the standard roof for detached buildings?-IF THIS IS THE CASE, WHAT IS TO BE DONE?

Would it not seem to many as though the slate roof was the next alternative? BUT IS IT NOT A FACT that slate has deteriorated, and in order to get a good slate roof you must pay a price which is really exorbitant?

Does it pay to use the cheap slate which shales off, splits and cracks? If not, does it not seem as though slate, which is good, enough to use, ranks along with other extremely high priced roofs, with which, perhaps, no fault can be found except the price?

If wooden shingles are to be super. . ceded WHAT IS THEN TO TAKE THEIR PLACE? Have you seen the new RUSSEL.

cheap grade of wooden shingles, cheaper than the best grade of wooden shingles, better looking than any wooden shingles, as good looking or. better looking than any of the high priced roofs, will unquestionably outwear three or four cheap wooden shingle roofs, AND AT LEAST DOUBLE THE WEAR OF ANY WOODEN SHINGLE ROOF THAT CAN BE BOUGHT, have many advantages over the high priced roofs, are capable of many combinations of colors and designs, diamond or square shapes, capable of bending around corners, in fact, THE LAST WORD IN SHINGLE CONSTRUCTION.
