lector—hve or even two days later.

That's just one of many advantages of Burroughs-made statements —to make out, they take less than half the time of pen-made statements.

Which means, they go out on the first of the month—not from the 5th to the 10th. And the old rule of "first come, first served" applies to statements.

Result—less collection expense less money on the books—less bad

And it's being proved every month by many thousands of business men now using these machines.

Let us make out your statements next month—no cost or obligation.
