build a life.

Building a life. That's the main out. processes, through our surroundings, contribute to life's building every standard of life that we set before practice is just as good as no theory Work and Ours." All are cordially receive what is left after all the other schools, people, bents, tendences, her-experience in life and in getting on ourselves may be either too high or edities, trade, business, profession, top of hardships problems, crises, too low. It is oftener too high than but mainly through our course in the temptation and sins and—going on the Behool of Rough Ways.

HARDLUCK

That will bring out the mettle and force the heart To rally the old guard of pluck.

For a man never knows what's the strength of his back, Till his back is weighed down by a load; And a man never knows what's his speed in a race, Till his shoulders are lashed with a goad.

It's easy to dream what great fellows we are, When the sailing is smooth and no cloud

And we slide thro the world with the crowd. But let trouble come knocking some night at the door; At the gate let calamity ra ge;

People shine with the gold if the gold stuff is there;

ODD BITS OF LIFE

How to Cut Down the Cost of Cost Keeping

Cost finding is primarily finding figure tacts.

If one finds them by inefficient may make the finding cost more than the facts are worth.

Finding them with a Burroughs—by the machine method—costs less than any other way, and it's a very small item where it will not pay to get the facts with a machine.

May we make a showing in your office, of what a Burroughs can do for you in handling cost? No cost or obligation.

Burroughs Adding Machine Co.
