Gamblers Tales

Washington, D. C., Feb. 3.—Some of the Wall Street gamblers have "dreams," and like the fabled Eugene Oram, they recount actual happenings that may lead to the unfolding of the source of knowledge of important private state documents in the financial markets. When the inquiry was under headway in Washington the politicians very politely exculpated themselves and their associates. Lawson was universally voted a bad egg. Sources of information the last year. The Dead Letter Division handled 10,339,890 letters and parcels, which was a slight increase over the previous year. And still, at the same time, printers, newspapers and government officials and every one else is shouting loud and vigorously and telling people to be careful in Washington were quickly pumped dry, and then the Congressmen moved on to New York. Under a close examination it has developed that some of the Wall Street brokers knew more than they are willing to tell; but out of a mass of testimony it is likely to be found that regular channels have long been open through which information has found its way between the big business centers and the highest official circles. There are old sayings that tell about "honor" among the lowest classes of human beings—and it is through this armor, which is carefully protected by gamblers, that the Congressmen are trying to pierce. There are a lot of people like Lawson who are "sore," and some of these are likely to "spill the beans" at any time.

Gasping Struggles of States

When every other form of political strategy fails, the rights of the states to act independently of the federal government, is a favorite method of avoiding the issue, or is brought forward as an argument to defeat the biggest reforms that come before Congress, or are subjects for executive action. Woman suffrage, child labor, prohibition and other big issues are clouded by the claims of the authors of the pleas for state rights.

WENT TO CANADA AND FOUND RELIEF

Remarkable Tributes To "Fruit-a-tives" The Great Canadian Fruit Medicine.

MISS RHAPSTOCK
 270 Wisconsin St., Kenosha, Wis.
 Jan. 16th, 1916.

"I had Catarrh for thirty-nine years, and I doctored with a great many doctors and took all the patent medicines that I heard of. At last, I went to Canada and saw "Fruit-a-tives" advertised. I commenced taking them in 1914, and kept right on for a year and my Catarrh was entirely relieved. Thank God for the relief as it is an awful disease to have. The "Fruit-a-tives" have helped me in other ways, also. Now, if you want to publish this, you may do so for it is nothing but the truth, and the whole truth."

MATTIE RHAPSTOCK.

"Fruit-a-tives" is now made in the United States as well as in Canada, and sold by all dealers at 50c. a box, 6 for \$2.50, trial size 25c.—or sent postpaid on receipt of price by Fruit-a-tives Limited, Ogdensburg, New York.
