

OUR LUNGS ARE DELICATE

Overwork, lack of fresh air, mental strain or any sickness disturbs their functions. Stubborn coughs tear and wear the sensitive lung tissues.

SCOTT'S EMULSION

should be taken promptly for hard coughs, unyielding colds, or when strength is lowered from any cause. Its high nutritive value creates resistive force to ward off sickness. The rich cod liver oil improves the quality of the blood to relieve the cold and the glycerine is soothing and healing to the lung tissues.

Refuse Alcoholics Substitutes Which Exclude the Oil.

ANNUAL VILLAGE REPORT

(Continued from first page)

C. W. Williams, sundry

NOTICE OF BOND SALE

The Village Board of the Village of Andover, N. Y. hereby offer for sale \$4,950.00 pavement bonds of the following description: \$500.00 per bond being denominated March 1st, 1918 and payable first bond March 1st, 1918 and one bond on the first day of March each year thereafter until the whole sum of \$4,950.00 is paid. Sealed bids will be received by the Village Clerk at his office on Greenwood Street, in said Village of Andover, on or before March 5th, at the lowest rate of interest.

E. J. ATWOOD, President.
ERWIN D. BAKER, Trustee.
C. E. BROWN, Trustee.
ANGELO O. TUCKER, Clerk.

Dated Andover, N. Y., Feb. 21, 1917.

LINGERING COUGHS ARE DANGEROUS

Get rid of that tickling cough that keeps you awake at night and drains your vitality and energy. Dr. King's New Discovery is a pleasant, balsamic remedy, expectorant, laxative and prompt expectorant. It soothes the irritated membrane and kills the cold germs; your cough is soon relieved. Delay is dangerous—get Dr. King's New Discovery at once. For a full description of this favorite remedy for asthma, coughs and colds, get a bottle today at your Druggist, etc.

INTERESTING NEW YORK STATE PARAGRAPHS

Tonawanda's fire board has decided to buy an auto fire truck. Medina is to have a woman suffrage school on March 13 and 14. Batavia departments have been established in the public schools in Dunkirk. D. P. Russell has been elected chief engineer of the Mt. Morris fire department. Postal authorities have changed the name of Moscow, Livingston county, to Leicester. Dansville retail milk dealers have increased the price of milk to nine cents a quart. The woman suffrage bill was passed by the assembly without debate, by a vote of 124 to 10. Convict labor will be requisitioned by Monroe county to assist in town road building this summer. The milk dealers of Perry advanced the price to nine cents a quart, and it is said another advance is coming. Orville C. Butler has been appointed paid secretary of the Niagara Falls board of trade, succeeding G. F. Diemer. Up to date 388 families in Rochester have been supplied with coal through orders issued by the police department. Forresterville taxpayers are to vote on a proposition to spend \$15,000 on paving Main street at their election next month. With liabilities totaling \$53,282 and assets valued at \$223,882, the Cyphers Incubator company of Buffalo went into bankruptcy. Olean's threatened water famine has been averted. Residents and business plants have stopped wasting the fluid after being warned. Police Justice Moser of Lockport has turned over to the city treasurer \$255 in fines collected from auto law violators since last October. Comptroller Travis announced the appointment of former Assemblyman William J. Maier as deputy comptroller, to succeed Warren I. Lee who retires March 1.

Jamestown politicians want higher pay. They receive \$75 a month for the first year after appointment, \$90 the second year and \$35 the third. There the figures become stationary. Increase, it is intimated, will come when the next city budget is made up. Led by Charles B. Perry of the state highway department, a dozen prominent citizens relieved coal shortage in Binghamton in their own way by seizing a car of coal on an Erie train. They carried it away in wheelbarrows to keep the fires in their homes burning. The Worken-Gibby Monumental company of Batavia has been awarded the contract by the New York State Monument commission to erect on the Gettysburg battlefield a monument to Major General Abner Doubleday, and one to Major General John C. Robinson. The Lackawanna has lifted its embargo on all westbound freight from New York and all other points on its lines destined to points west of Buffalo. The road's embargo against westbound freight from connecting roads east of Buffalo has also been lifted. Joseph Smella of North Tonawanda has asked the police to search for his 18-year-old daughter Marion, who disappeared last week, a few hours after her marriage to Chester Radwanski of Lackawanna and while a wedding reception was in progress at her home. Young men living in the Cattaraugus-Chautauqua county congressional district will have an opportunity of taking examination to West Point Military academy or Annapolis navy school. They will be held before President M. J. Fletcher of the Jamestown high school. The Livingston county board of supervisors last week adopted section 141-A of the highway law so that it will apply on all future construction. Under its adoption the county will be able to construct 10 or 12 more miles of the Livingston county approved highway system. A place for the detention and treatment of habitual drunkards is needed in Niagara county, according to Sheriff William Shaw, Hugh Smith, chief of the Lockport police, and Alanson C. Bigelow, superintendent of poor. They have suggested to the supervisors that such a place be provided. John R. Lingenfelter of Washington has been engaged as superintendent of the Letchworth State park at Portage, and he will commence his new duties the forepart of March. J. O. Howard, who has been superintendent of the park for the past five years, tendered his resignation a short time ago. If the bill of Assemblyman Gage of Wyoming becomes a law then what is known as "Grade B" apples would be known as "Commercial Grade." The use of the letter "B," according to Mr. Gage indicates an inferior quality of fruit and he believes that the more favorable title would help to market the apples. Several residents of Cuba, while out near the woods have seen woodchuck tracks, which nearly always reveals the fact that the remainder of the winter will be an open one with very little cold weather. It is said that these animals never leave their holes in the ground until they are assured of warmer weather. At a meeting of the New York State Fruit Growers' association, Hudson valley peach growers expressed the opinion that there would be an excellent peach crop in 1917. Careful examination of orchards has failed to show any damage by the cold and it was said that with a fairly favorable spring the crop would be most satisfactory. Mrs. W. H. Hatch of Albion, has been appointed grange chairman for Orleans county by the Eighth campaign district of the Woman Suffrage party. Mrs. Hatch is a member of the Barre Center grange, and is one of the first women to be appointed from Western New York under this division of the party. Fifty employees of the Bradner department store of Olean have been made recipient of \$2,500 from the management, partly as a token of appreciation for services rendered and partly because of the high cost of living. Those with the firm for a year or more get \$50, those six months and less than a year \$25; those three months and less than six, \$15. Feeding of thousands of hungry canvas back ducks, which have taken refuge in the marshes at the foot of Cayuga lake and along the Seneca river, was begun by Willard A. Hoagland, state game protector. Acres of the surface game the lake are covered with ducks. As there is no food for them in the few spots of open water they are suffering from hunger. A bill designed to carry out some of the recommendations made in the report of the legislative committee which investigated the use of habit-forming drugs in the state, was introduced in the legislature by Senator George W. Whitney, chairman of the committee. The bill would provide for a state dispensary system whereby confirmed drug addicts could secure drugs pending treatment. If real estate investment chances are interesting to you, to-day's ads are important to you.

EAT FOR LESS

There is but one way to "Eat for Less" in these days of soaring prices. That is by getting BETTER QUALITY for the SAME MONEY.

You get that at this store.

L. P. CRANDALL

Phone No. 6130

Our Great Argument

We cannot promise to make you low prices, for such groceries would not be fit to eat. They would be a menace to your health.

But we can and DO promise to give you the Highest Possible Quality for the money.

We have no higher ambition than to make our store known in every home in this section as *The Home of Quality Groceries*.

Try us. You'll find that we live up to every promise.

H. H. WILLIAMS
