HORNELL CHURCH TO USE MOTION PICTURES
 The officers of the First Presbyterian Church of Hornell have decided to install a complete motion picture equipment in the church auditorium to be used in connection with the special Sunday evening service. The service at which the pictures are to be shown are not to be mere entertainments, but a religious service in all respects, the films to be Biblical, nature study, travel and religious. There will be no admission, not even a collection, according to the present plans. The first service is to be held Sunday evening, March 11th.

THE LENGTH OF A WINK.
 The time occupied by the several phases of the movement of a wink has been measured and it is found that the descent of the lid takes from 75 to 91 thousandths of a second. The interval while the eye is shut was in one case only 15 hundredths of a second. The raising of the lid occupied 17 hundredths of a second.

A MYSTERY.
 "Who was that lady I saw yer talkin' to at the ball game, Jimmy?"
 "That was our schoolteacher. I was tryin' to make her understand how the game is played, but it wasn't any use. Gee! I don't see how she ever got to be a schoolteacher."

EUPHEMISM.
 We read of "lively artillery battles" in the war reports. This is the business of wholesale killing dressed in the language of graceful felicity.

EVIDENT OBJECT.
 The Fly—If they think that motorman's screen is going to keep me out, they are mistaken.

A WIFELY WISH.
 A woman in police court, who was asked whether her husband was in France, caused laughter by replying: "No, sir; I wish he was."

ISN'T THIS TRUE.
 It may be all wrong to go inside, to seek artificial heat, etc., but the flies will never, never learn about it.—Sioux City Tribune.

Sunday In
 Looking out of the window used to be an indelible offense on the Sabbath, the London Chronicle says. In 1760 the Kirk session of Edinburgh, "taking into consideration that the Lord's day is profaned by people standing in the streets, watering in the fields and gardens, as also by idly gazing out of windows, it is ordered that each session take its turn to watch the streets on Sabbath and to visit each suspected house in each parish by elders and deacons with heads and officers and after sermon, when the day is long, to pass through the streets and to reprove such as transgress and inform on such as do not refrain."

FASHIONABLE FABRICS FOR SPRING

We Pay All Parcel Post Charges

Dear Reader:

Whether it be silks, or dress goods of wool, or materials of silk and wool, we have always maintained our position as leaders in these lines. Years ago this store became recognized for the liberality of its stocks in piece goods and we have been pleased to maintain that reputation, adding the prestige of STYLE, a most important factor.

This Spring season seems to have bloomed super-abundantly with new ideas in exquisite fabrics. The patterns are extravagantly rich in design and the colors have purloined all the brilliancy of the Spring for their very own.

We are very desirous for you to be among the first to see these beautiful fabrics and, if they appeal to you as we are sure they will, to also be among the first to select designs. As the season advances naturally the varieties lessen and it is for this reason that we strongly urge your attention at this time.

If it is impossible to pay us a personal visit we urge that you take advantage of our mail order department, now well equipped, by writing us for samples.

In order that we may fill such requests for samples intelligently we ask you to aid us by writing in the information called for upon the attached coupon. Simply fill out the coupon, mail to us and the samples will be sent by return mail.

May we hope to be able to show you the New Spring Fabrics in the near future or to have the privilege of sending you samples?

Very truly yours,
BABCOCK & DAVIDSON.
