REACHING THE LIMIT
 The United States has just about reached the limit of endurance. It must assert its international rights or confess itself a

raven who is unworthy of rights.
 The "overt act" has occurred and at this writing there is no possible means of avoiding it if we would remain a nation of self respecting people.
 But one fact should prevail above all others. If we are forced into war we should go in as a united people, with a grim determination to leave no act undone that will compel respect for our flag and our citizenship.
 We abhor war, but even an honorable warfare is preferable to a dishonorable peace.
 The time for protesting has passed. The hour for determined and overwhelming action is at hand.
 When diplomacy fails the sword must take its place.
 The Stars and Stripes forever.
