

MARCH 30, 1917

30 YEARS AGO TO-DAY

ALASKA WAS PURCHASED FROM RUSSIA FOR \$7,200,000.00.

This price, which at the time appeared adequate, in the light of future gold discoveries, seemed pitifully small. There have been only two real gold rushes in the history of our country, the Californian of '49 and the Yukon of '98. It is not at all probable that you will be able to obtain wealth at first hand from Mother Earth, but you may acquire it by regularly depositing something from your pay envelope each pay day in this bank.

Andover State Bank

### NEW PASSENGER COACHES

The Erie Railroad Company has received from the Pressed Steel Car Company six additional coaches and one baggage car to be used in through passenger service between New York and Chicago on trains Nos. three and four. The chief elements in the development of these new coaches are safety and comfort to passengers, low cost of operation, maintenance and moderate first cost. One of the safety features of the new car bodies is the Stillwell antitelescoping bulkhead construction at the ends.

Women are coming to know that when a store has anything interesting to say to them, it will say it in its ads.
