Economize but economize wisely. The false idea of economy which would hoard, scrimp and starve, thereby Lessening energy, Stopping the buying of necessities, Closing factories, diminishing distribution and lessening transportation would be the short road to calamity and hard times. The kind of economy that is needed now is that which Eliminates wastefulness, Conserves energy, Goes about business as usual, Plus more energy, Plus more progressiveness, Plus more scientific methods. As John Wanamaker says: "Our country prospers when pay our war costs at the same time and have enough left over to aid our allies. Our country prospers when with business better managed, hoarded, through the economy, will be hard pressed to keep food on the table and clothing on the back. Keep business going is a patriotic slogan. Keep money in circulation. Keep employment in the body. Keep wages high."
