

Wake Up, Andover!

\$76,000

Is the amount Andover is supposed to subscribe to the

LIBERTY LOAN

And to date we haven't taken one-quarter of that amount. Isn't it about time to "GET BUSY" and give some real evidence of your patriotism?

The Boys in the Trenches

can't fight unless they have something to eat, something to wear and something to fight with. That's exactly what the LIBERTY LOAN provides and the least the fellow who doesn't shoulder the gun can do is to shoulder his share of the financial burden our country must carry.

There are few in Andover who cannot take a \$50.00 Bond (the finest security in the world bearing 3½ per cent interest) and to this extent at least help out in this great cause. If the money is not available now, the Bond can be purchased by paying \$1.00 each week for 50 weeks, at which time the Bond is delivered to the purchaser.

It may mean a little sacrifice, a little self denial, but isn't our country worth it?

Some of our boys have already gone to the front and others will follow. The least we can do is to support them with our dollars.

A Little Secret We Wish to Tell

WE push the J & K Shoe for women so hard because it pays so well...pays in hard, cold dollars. Can you blame us? It not only gains new customers for us, but it holds them. In fact about eight women out of every ten who wear the J & K shoe once never buy any other make.

You may not be interested in knowing that we find the J & K shoe a profitable one to handle, but you must be interested in knowing that it brings so much satisfaction to our customers. And if they are so well pleased, why not YOU, too?
