

Is Your Money Supporting the Government?

At this critical period in our history our manufacturers are offering their mills, and our young men are offering their services to the United States Government.

Would you like to do your share and help by putting your money where it will support the new Federal Reserve Banking System, which the Government has established to stand back of our commerce, industry and agriculture?

You can do this by opening an account with us, as part of every dollar so deposited goes directly into the new system where it will always be ready for you when wanted.
