son, Works, McGinnis and Ray could not save the day for the errors of the rest were too bad for the best. As yet manager Potter has not received a reply from the manager of the cutlery nine for a return game, but he thinks when he gets his team in trim he will give them the hottest game of the season. We think it will be a hot game all right if it is as hot as the past few days.

**"RAISE MORE HOGS"**

**State-wide Movement to Increase Pork Production**

"Raise More Hogs" is the slogan of a movement resulting from a recommendation made to and adopted by the New York State Food Supply Commission at a conference held at Syracuse July 5th and 6th. The New York State Agricultural Society heartily endorses this movement and is urging its members to co-operate.

The special census of agricultural resources taken early this spring showed but 435,908 hogs all sizes and ages, upon the farms of New York State. For the past 27 years the number of hogs has been steadily declining, the number reported in the spring of 1890 being 843,342. This is due to several causes, prominent among which are the increase of truck and fruit crops and the selling of whole milk.

Experts, however, believe that in this crisis it will pay in every way to increase the hog production of New York State. The U. S. Department of Agriculture asserts that:

"Hogs fit into the modern scheme of farming on nearly every farm and are one of the most important animals to raise both for meat and for money. They require less labor, less equipment, and less capital, make greater gains per hundred pounds of concentrates fed, reproduce themselves faster and in greater numbers, and give a quicker turnover of money than any other animal except poultry."

All Alleganians are cordially invited. Don't forget the date.

**RHEUMATISM ARRESTED**

Many people suffer the tortures of lame muscles and stiffened joints because of impurities in the blood, and each succeeding attack seems more acute until rheumatism has invaded the whole system. To arrest rheumatism it is quite as important to improve your general health as to purify your blood, and the cod liver oil in Scott's Emulsion is nature's great blood-maker, while its medicinal nourishment strengthens the organs to expel the impurities and rebuild your strength. Scott's Emulsion is helping thousands every day who could not find other relief. Refuse the alcoholic substitutes.

**HORNELL FAIR**

It is to be regretted that several New York State Fairs have discontinued this year because they fear that they cannot make expenses during the war. The Great Hornell Fair, however, will be held as usual on the last four days of August. It believes that a holiday of relaxation and amusement is enjoyed by the people during strenuous times and that the encouragement of agriculture and education along agricultural lines is more necessary now than ever before. America is being called upon to feed a quarter of the population of the world and next to war our chief business is agriculture.
