#### THE GIANT AWARE

We have recently witnessed an event in this country the like of which the world has never before seen at least, the world of our knowledge. We have witnessed che entrance into the ranks of nation's fighting men, of ten mil-lion soldiers, waiting for a call to the colors. We see today an army the colors. We see today an army of nearly-two million men actually under arms, equipped and as-sembled, ready to do or die in their country's service.

It is an amazing sight. Americathe peaceful; America, the cradle of toleration, the nursery of jusa, the cradle tice and right-America in arms and springing to the fray,

And the strange feature of the ase is, it has astonished even uncricans themselves. We had And the strange feature of the case is, it has astonished even Americans themselves. We had been so long accustomed to hear ourslyces referred to as a sleeping giant that we had come to so regard ourselves. We had thought that the affairs of the outside world concerned as not outside world concerned us not and that we were sufficient unto

It also sees him shorn of his provincialism and taking his rightful place in the world a man of power and might among men of power and might.

among men or power and angine.

And being awake, we find confronting us one of the most stupendous tasks that ever confronting deapenle. We find ourselves the probable deciding factor in a world war, the balance of power that shall make this earth a safe that shall make this earth a safe world in which Right and not Might shall reign.

There lies the meaning of the

quiet, deep, but deadly purpose of our people. We must win for humanity's sake. And when wer our people ever called upon to perform a task for humanity, that

they failed?

Our millions who have answered the call have come cheerfully. They have stepped forward with They have stepped forward with the fullest appreciation of the work before them, but also with supreme confidence in their ability to preform that task. This is the spirit that, conquers, and it will conquer in this instance. Soldiers of America, never in history could it be more truly said that "the eyes of the world are upon you."

### PUSH THE FAIRS.

Our people should not permi emselves to become so engrosses in the war and kindred subjects as to neglect ample preparations for the country fairs this fall. We may be tempted to think we are too busy to attend to them but in this we commit a grave error.

#### HOW WILL IT BE BAISED

In discussing the question of aising the enormous amounts of revenue necessary even during the coming twelve months an exchange, after demonstrating the atter impossibility of raising the vast amount of taxation concludes as follows:

"In a sentence, unless the big loans are balanced with heavy taxes upon those who are making money out of the war, we will rapidly and in-evitably reach a state of fi-ling industrial and social nancial, industrial and social chaos.

The conclusion is inevitable to the candid person who will give the question unbiased thought.

Based on the probability of a need of from fifteen to twenty billion dollars by this time next unmer, the demand would mean from \$600 to \$750 for each of the twenty million families that the twenty million rannines that make up the nation. ### IT CONCERNS US ALL.

The man ,woman or minor who is not concerned as to the outcome of the present struggle is to be pittied and enlightened. He or she is really unconcerned thru ignorance. They have failed en-tirely to grasp the true inward-ness of the situation confronting us as a people.

Let us suppose that the history of our country were to end with the present generation. Does any one imagine that our statesmen would be materially interested in the settlement of the question in dispute! Hardly.

. Naturally, then, it is mainly the future of the country that is to be considered. What that future is to be will depend upon our ac iton now.
