 Benjamin F. Lewis died at his home in Greenwood, Sunday, Sept. 7th, after a long illness, at the advanced age of 82 years. Mr. Lewis was born in Troupsburg, N. Y., in 1835. He was the son of Abram Lewis, one of the pioneers of this part of Steuben who was the father of twelve children several of whom lived to be octogenarians. Deceased came to Greenwood from Troupsburg upwards of thirty years ago and had made many warm friends during his long residence here.
 He was a veteran of the Civil War, belonging to the 189th regiment of N. Y. volunteers. He was present at the surrender of Lee at Appomattox and his regiment was one of the first on the grounds where the capitulation was made. During the campaign a short time before the surrender of Lee Mr. Lewis with his comrades were lying on their backs on the ground when a shell from the rebels killed five of his companions, two on one side and three on the other. Mr. Lewis was himself very seriously wounded. Mr. Lewis was a very deserving member of his church. He was a member of the M. E. Church of this place and was

active in forwarding christian work.
 The funeral was held at the church, Rev. I. R. Peacock conducting the services.

He leaves to mourn his loss his widow and two children, Mmes. Streeter, of Greenwood, and Mrs. Wm. Buck, of Hornell, besides a large number of relatives and friends. The funeral arrangements have not been made at this writing.

 Mrs. Fred Krusen, of Jasper, was in Greenwood Wednesday.
 Troubles multiply in Russia. The Germans are getting in their insidious work. They seem bound to make a republican government a failure in order to discourage the German people from instituting a government of that kind.
 The I. W. W.'s are in a bad way. The government came down on them like a wolf on a fold and seized a mass of evidence and made many arrests.
 Thos. Coleman was in our city Wednesday.
 Germany has got Sweden in an awkward position by inducing the Swedish minister to become a tool thru whom messages from the German sympathizers here can be transmitted to Berlin. The Swedish minister denied the charge and on his part it is further denied that Sweden knows the import of the communications sent, yet they were forwarded from Stockholm to Berlin which would seem to show that they were deep in it.
 American blood has been shed in France. The German airplanes bombarded an American hospital killing and wounding many of our soldiers. The hospital was plainly marked as such but the Germans shelled it for hours.

WHEN EVERY MOVE HURTS

Lame every morning, achy and stiff all day, worse when it's damp or chilly? Suspect your kidneys and try the remedy your neighbors use.
 Ed Swain, Maple St., Andover, says: "I think hard work is what weakens my kidneys and brings on attacks of kidney complaint. When I stoop over to put on my shoes, a sharp pain catches me in the small of my back and I can hardly raise up. I have a too frequent desire to pass the kidney excretions and have to arise several times at night on this account. For the last eight years at those times, I have used Doan's Kidney Pills, procured from the Brudage Drug Co., and they have always fixed me up in quick order, putting me on my feet again."
 Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Swain uses. Foster-Milburn Co., Props., Buffalo, N. Y.

FORTUNES IN OIL

Immense fortunes are today being made in the Mid-Continent Oil Fields. Never in the history of the industry have there been such activity and demand for the oil. Prices are more than four times higher than they were a few years ago. Many men have recently become wealthy overnight.
 The officials of our company, most of whom are residents of Oklahoma, and who have studied all phases of the oil industry, and therefore are well acquainted with the needs of success for drilling operations. We shall drill ten wells at once, or so fast as the drillers can do the work. Our company should have production in 60 days. Production means dividends, and an advance in price of the stock according to the rate of dividends paid.
 First wells will be drilled on a 70 acre lease on the Wheeler proven oil fields of Carter County, near Ardmore, Oklahoma. It is said this county is now producing 60,000 barrels of oil daily. Our lease is near the property of the Coline Oil Company, a very successful corporation owned by the Santa Fe Railroad Company. It is reported a well, about half a mile from our lease, recently came in with a daily production of 200 barrels.
 Our other holdings consist of well selected acreage in Kansas and Oklahoma, in territory which is considered by oil men as highly promising for big production. We will drill only in what is considered absolutely proven fields, and will do so "wildcatting."
 As soon as production will justify we shall build a 1,000 barrel refinery. Some refineries pay as high as 500 per cent profit.
 We are offering 100,000 shares of treasury stock at 50 cents a share. Much of this has already been sold by Oklahoma investors who know our officials and our property. We have a small block left which we will sell at the above price—50 cents a share. This offer will be withdrawn as soon as the 100,000 shares have been sold. The next appointment will be offered at par value, \$1 per share.
 This is an opportunity to come in at the development stage—always the best stage for investments in reliable and successful companies.

The President of the United States, the Governor of the State of New York, the Mayor of the City of New York, a former Ambassador to Germany, the president of one of the largest banks in the country, the president of a great university, and a brilliant and well-known congressman are among the men who have recently voted their approval and readiness to work in support of the Woman Suffrage movement.
 First among them, of course, is President Woodrow Wilson, who in a letter to Mrs. Norman deR. Whitehouse, chairman of the New York State Woman Suffrage Party, said: "A suffrage victory will be a splendid vindication of the principle of the cause in which we all believe."
 Governor Charles S. Whitman, of the State of New York, who spoke at the Suffrage Conference at Wednesday night's mass meeting, said in the course of his address: "Kaiserism, the Last Stronghold of Anti-Suffragism." "The woman's rights movement is spreading throughout the world and has touched, to a degree, practically every civilized country with which we are now at war."
 "There have been few more interesting changes in history than that which has come over the spirit of man, the controller of the suffrage, in the ninety years since the first campaign from the platform was started by Frances Wright, the idealistic young Scotch woman, and yet it was as inevitable as those two triumphs of the newly come democratic idea—the rise of the American colonies in 1776, and the freeing of the negro in 1863. The triumph of American Independence affected what had been just part of the nation; the freeing of the slave affected the race, while the freeing of the woman affects all humanity."
