The New Silks - The New Wools

A Truly Wonderful Collection

Fall's Smartest Dress Goods

This season, foresightedness has worked to our advantage, and particularly to you, in saving to a very great degree the big advance in Silk and Wool values. Owing already a large stock of staple weaves, we have added by early effort and painstaking thoroughness new shades, new weaves, new designs in great numbers, to our already large stock. Bought greatly in advance of the Fall season, some as early as last Winter, we are in a position to offer unusual values, combined with the greatest variety we have ever shown.

SILKS

Every department of silk manufacture is represented in this our great showing. Prices will meet with your approval, qualities will surprise you, and colors and designs will both astonish and charm you. Never in our history have we had such an immense assortment nor such attractive designs.

STRIPES

Here we have double the variety ever shown before. Wonderful in color schemes, some very daring in design, while others are conservative.

The new greys and tans vie with brilliant stripes are charming and striking effects. Plum, mauve, greens, blues, brown, burgundy, etc., each an entirely new color combination that presents a bewildering mass of color to the eye.

SATINS

This fabric in all the various weaves is the season's big item. We have put especial thought and care into procuring the best weaving lines the market shows. Each line is made by a mill whose chief concern has always been for durability and permanent colors.

These two main essentials to satisfactory service you will find in our new lines.

Every desired shade in stock.

PLAIDS

These will be used for skirts, waists and costumes. Are all 36 inches wide. Colors, ingeniously combined, and make exceedingly attractive street costumes.

TAFFETAS

Big shipment just in of this ever popular silk. Better still, prices remain the same to you as last season. Values are even better. Larger range of colors to choose from if you take early advantage of present stock.

DRESS GOODS

ORGANZES, GABARDINES, POPLINS are chief weaves in demand. Colors are rich blues, browns, pinks, greys, Burgundy, with very many new shades of each added. Finest assortment of grades of colors ever shown by this concern. See the best and prices remarkably low present conditions.

SUITINGS

This department shows a wonderful variety of new weaves in SCOTCH TWEEDS, MACLOTHS, VELOURS, MARRINGS, EFFECTS IN WORSTEDS, GABARDINES, LINS AND MEXES WEAR SUITINGS and small Stripes and Plaids in pleasing numbers. All widths, all weights represented.

COATINGS

The surprising demand for coat materials during the summer has spurred us to make a special showing of COATINGS for fall, winter and conservative lines that compare favorably with the best. Burells, Burells, both same and beautiful.

PILE FABRICS

Hours. Costume Velvets. All the new and black. Twist back, that is beautiful.

We Are Not Jugglers

Our goods are not deceptive in quality. The grocer who sells unreliable foods just for the sake of making a few cents more is not a safe man to trade with. Unreliable things cannot come into this store.

We know enough about these things to know when they are pure and when they are not. It isn't wholly a question of price with us. We get the best that money will buy and then sell it with just a fair percentage of profit added.
