Erhet was a former pastor of the church in this village, and acquaintances are pleased to learn that Mrs. Erhet is recovering from serious injuries received in a fall five weeks ago, down a flight of stairs, in which her head struck a cement floor causing a severe concussion.

STATE APPROVES LOCKUP

Improvements Made are Commendable, and Recommend One Further Change Installation of Full-flushing Jail Closet

Inspected October 19, 1917. John Common, Supervisor.

Since the last inspection this lockup has been materially improved. It occupies two rooms in the rear of the town hall which is a frame building. The two latticed cages have been moved forward and the window in the rear made available for increased light and ventilation. A loggers' room with four wooden bunks has been fitted up adjacent to the cell room and that class is now excluded from the cells.

The lockup is heated and lighted by gas. There is a sanitary closet adjoining the cell room and a sink with both hot and cold water in the hall. The cell bunks were provided with good bedding and the lockup was clean. The officer stated that the number of arrests averages about twenty per year and a considerable number of lodgers are housed during cold weather. An officer is on guard at night when prisoners are detained.

The improvements made are commendable. The installation of one-piece, full-flushing jail closets and lavatory in the cells would be a desirable improvement. Before installing same, the specifications should be submitted to the State Commission of Prisons for approval. A light colored paint should be used on the cells.

Respectfully submitted, CLIFFORD M. YOUNG, Inspector.
