Next week there will be put on sale in our community the Red Cross Christmas seals. As several thousand of these seals were to be mailed direct to individuals about the county, it is quite likely that some of the readers of the News have already received some seals thru the mail. If this is the case, just send in your money as requested, your community will be credited with the sale and the funds will be expended in the same manner as tho you had purchased the seals thru your local committee.

SCOTT'S EMULSION

Establish your blood power, purify the circulation and bring back the snap and elasticity of your health. **Scott's Emulsion** is Nature with the correct food which is better than any drugs, pills or alcoholic mixtures.

The Norwegian cod liver oil in Scott's Emulsion is now refined in our own American laboratories which makes it pure and palatable.

ORIGINALLY MADE BY DOAN'S KIDNEY PILLS

ARE YOUR KIDNEYS GIVING OUT?
Back feels lame and achy!
Suffer kidney irregularities!
Passages painful or too frequent!
Hard water is hard on the kidneys.

Alkaline water is especially bad. Give the kidneys help. Help to overcome the effects of bad water.

Use Doan's Kidney Pills. You can depend on Doan's; Andover people recommend them. Read this Andover woman's experience.

Mrs. J. A. Swink, Second St., says: "I think the bad drinking water I used when living on a farm affected my kidneys and caused lame back. At times, I felt worn out and lacked energy. The chief trouble, however, was with my kidneys acting irregularly and that caused me considerable annoyance. I got Doan's Kidney Pills from the Brundage Drug Co., and they cured me of the attack and I felt like a different woman."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Swink had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Better not make gifts than to make the buying of them a matter of anxiety, or dread—or of "last moment panic." Buy in time—buy advertised things—buy as prudently and wisely as the buying daily necessities, and you'll make a success of your giving.

A profitable employment for the girls is the making of tiny little scrap books of jokes, cartoons and short articles of local interest to be sent to brothers, sweethearts and friends in the camps and at the front. Make them as local in tone as possible and they will be much appreciated by the boys. No need to aim at permanency as the boys will probably not be able to preserve them after they have enjoyed their contents.

Do you ever wish for a publication from Washington... independent and... from the loads of Washington... patches!

Do you ever have a feeling that you would like to read a nice, crisp, snappy and easy little monthly magazine, that comments intelligently upon the affairs of the Capital and the Nation?

Suppose you invest 25 cents for a three months trial subscription to "Achievements." Write to J. E. Jones, Real Estate Trust Building, Washington, D. C.

Southwest Oil and Refining Company

Capital \$1,000,000

J. E. Aiken, President
W. C. Jenkins, Vice-Pres.
F. H. Crawford, Sec.-Treas.
Par Value \$1.00

Company owns leases on approximately 15,000 acres of choice oil and gas lands in Oklahoma and Kansas.

First drilling operations will be confined to a tract of 230 acres in the proven oil fields of Carter County, Oklahoma, on which 65 wells can be drilled. The sands of this section are considered the most prolific in the oil fields of this country. Wells hold the same production month after month and prominent oil men predict they will flow for fifty years. Average depth of the present producing wells in these fields is 1,000 feet. Geologists assert there is every indication that deep oil sands also exist, and in this belief adjoining companies are drilling wells in the expectation of getting big producers at 3,000 feet. Should the companies be successful Southwestern Oil & Refining Co. property in the immediate vicinity will have an enormous value.

For the present the company's drilling operations will be confined to the shallow sands, where production is practically certain and the expense of drilling only normal. The first well should be completed within 60 days.

In order to drill 65 wells on this 230 acre lease the company has placed on the market an allotment of its treasury stock to be sold as the money is needed, at par-\$1.00 per share, and subscriptions are solicited.

We believe this stock is an excellent speculative investment. For any portion of this allotment or additional information address W. C. Jenkins, 122 E. 25th St., New York. 3711
