[illegible] BOLSHEVIKI [illegible]

Altho the failure to receive letters from men in the service is not pleasant to relatives and friends at home the adage "no news is good news" never was more true than at present. The report of every casualty at home or abroad is immediately wired or cabled to officials at Washington, being relayed from there without loss of time to the emergency address of the soldier or sailor affected. It is also at once released for publication in the newspapers. No news of casualities has or will be held up.

Make ice save fuel. Gather natural ice this winter so that much needed coal will not have to be used for making so much artificial ice next summer.

[illegible] MEN WITH SCIENTIFIC TRAINING

Secretary of War Newton D. Baker urges men in scientific institutions to continue their training.

"The Government service will demand more and more scientifically trained men," said he, "and I hope those who are in charge of scientific institutions will impress upon young men the importance of continuing their studies, except to the extent that they are necessarily interrupted by a mandatory call under the provisions of the selective service law."

Every effort will be made to use each student's special training in conection with specialized occupations in the Army, to afford technical students liable to call as great an opportunity thru the National Army as if they had enlisted.

20,000 GRADUATE NURSES REQUIRED

With a continuance of the war, in the next year at least 20,000 nurses will be needed in Army hospitals at home and abroad. Of the 80,000 graduate nurses of the country only 3,500 have so far been assigned to duty in Army service, and of this number 1,500 are in France.

An Army nurse must be a graduate of a training school for nurses and must have served for two years in a hospital. They are assigned to duty in the United States or abroad, and preferences are granted when conditions permit. Nurses who prefer not to have service abroad will have their preferences respected.

A Fight for Life

It has been fought on the far away fields of France in the past and the lucky people are those who have suffered, but who are now well because they heeded nature's warning signal in time to escape more trouble with that wonderful new discovery of Dr. Pierce's, called "Anuric." You should promptly heed these warnings, some of which are dizzy spells, backache, irregularity of the kidneys or painful twinges of rheumatism, sciatica or lumbago. To delay may result in possible the dangerous forms of kidney disease, such as diabetes or stone in the bladder.

To overcome these distressing conditions take plenty of exercise in the open air, avoid a heavy meat diet, drink freely of water and at each meal, take Doctor Pierce's Anuric Tablets (double strength). You will, in a short time, find that you are one of the firm indorsers of Anuric, as are thousands of neighbors.

MALDEN ON THE HUDSON, N. Y.—"I have taken two bottles of Anuric Tablets and they have helped me wonderfully. Now I am feeling fine. Before I commenced to take them I had the rheumatism quite badly but that has left me since taking Anuric and it has helped me in other ways. I feel better and stronger than I have felt in a good long time. I cannot say enough in praise of Anuric. Also the 'Pleasant Pellets' are fine for constipation and stomach trouble. I keep them in the house all the time. I would not be without them and I do not fail to recommend Dr. Pierce's medicines whenever I have the chance."—MRS. ADDIE BROMWICK.

Step into the drug store and ask for Anuric, or send Dr. V. M. Pierce, Buffalo, N. Y., 10c for trial pkg. Anuric—many times more potent than lithia, eliminates uric acid as hot water melts sugar.
