## Start the New Year With a Christmas Holiday Fund

EVERYBODY WANTS MONEY at Christmas time, but not everybody has as much to spend as they would like. Those who started a Christmas Holiday Fund a year ago and kept it up had plenty of money this Christmas. Those who didn't wish they had.

THE BEST TIME to begin saving is right now. Deposit what is left from your Christmas buying in this bank and keep adding to it each week until next Christmas. It is good advice, the advice that guides you along the road to wealth and happiness.

## The Price of Food

doesn't mean as much as the quality. You'd better pay a fair price for a high quality than a little price for a low quality.

There are all sorts of ways of cheapening groceries without showing where it is done.

We are not saying these things to frighten anybody. We merely repeat what may be seen in the newspapers every day.

If you want pure, high-grade groceries of tested quality we have them.
