

Our Annual Clean-up Sale of Suits and Overcoats for Men, Young Men and Boys

This is our usual annual Clean-up Sale time and it's the custom we'll not break now in face of advancing prices. The original prices on these goods were as reasonable as good merchandise could ordinarily be sold for, but these special prices will actually mean about one-half of what you will have to pay for them the next corresponding season.

- At \$12.75 all Suits and Overcoats that were \$15 and \$16.
- At \$14.75 all Suits and Overcoats that were \$18

You know our Serges—they are the best the market affords. Therefore do not delay the buying of a Serge Suit, even if you have to lay it aside until you want it. These

are money saving tips for you. The assortment is exceptional, but the length of time it will last we cannot guarantee.

GREENWOOD LOCAL BRIEFS

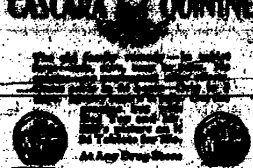

The big storm from the West has arrived. The snow is piling up. The R. F. D. carriers are having the time of their lives. J. Knox Miller, of West Greenwood, was in town Wednesday. Mrs. Randall P. Stephens and daughter, Sabra, who have returned from a week's visit with relatives in Buffalo, report that Wh. Young, who fell some time ago over 60 feet, is now able to get about on crutches. Mr. Young's escape with his life was a remarkable one after a fall from such a great height. Mrs. Charles Davenport was in Canisteo Wednesday. M. C. Williamson and Miner Streeter motored to Hornell Wednesday. The Board of Supervisors is in session at Hornell this week. John Swartz, of West Hill, was a business visitor in town Wednesday. The residence of W. O. Slocum caught fire Wednesday morning, but was soon extinguished. The fire caught around the stove pipe where it enters the chimney. Jesse T. Osmin and Arthur York were in Hornell Wednesday. Letts Thompson, of Cobscook, was a Greenwood visitor Wednesday. Dale D. Baker has entered upon his duties in the Coston Company. The heavy frosts of late have injured many potatoes in cellars and probably will advance the price of those that escape the frost. Charles Davenport is in the northern lumber woods at work. The latest railroad rumor is that Uncle Sam is about to reope the business of the N. Y. & Pa. railroad. Mrs. John Case, of Banks Hollow, was a visitor in Greenwood Saturday. Mrs. C. O'Hagan and son, Thomas, of West Hill, were in this city Wednesday. Chauncey Easley is home on a visit. He has a job on the Erie. George C. Whiting, of Canisteo, is a prominent candidate for the position of sheriff. The residents of Wallace are considerably wrought up over the finding of a quantity of dynamite under a board pile near that place. It looks like it was intended for some diabolical purpose. Misses Furrer, Remagn, Vosseler, Wheeler and Rouse have returned to their work as teachers in our school after the holiday vacation. Jay Coyert, of Painted Post, formerly of this place, is visiting friends in Greenwood. Clayton Eismann is working as temporary E. D. mail carrier on route No. 1, from this place in the place of D. D. Baker who has resigned. An locomotive passed thru town Tuesday from Shinghousa to

Canisteo. The old familiar sound was pleasant to hear. The Germans are trying to make the world believe that they have always been for peace. They are like the wolf in the fable, who accused the lamb of roiling the water; anything to excuse their blood-thirstiness. The weather the past few weeks has taught the people that they cannot depend upon coal or gas for fuel in extreme cold weather, and that they will have to lay by a supply of wood as in days gone by. Russia has given ear to the German plotters until she has been rendered helpless and hopeless. She now sees the object of her enemies' peace overtures. The Italians are fighting bravely on their own soil, and they have a strong ally in the weather which will bring them victory. The German people, outside of the military class will find that Uncle Sam is their best friend. Three children were asphyxiated by gas from a radiator in Philadelphia. They were eight, six and four years of age. An order has been issued—it is said, that no more married men will be called upon for military service as the unmarried men are numerous enough for all requirements. But what of married men that would choose the least of two evils? The people of this vicinity had to depend entirely upon fireless cookers during the cold snap. J. K. Miller and wife were in Canisteo today. The Hon. Mrs. Rankin M. C. has motored a bill requesting the United States to interfere in the British Empire in favor of the separation of Ireland from the Empire. (January 4.) Cold record broken. The country in the grip of 30 degree weather. The supply of gas has here been exasperatingly low, while we read that at Hornell and other places it has been fair. There has been much suffering throughout the country for lack of fuel. The soldier boys without overcoats are in a pitiable condition. Red tape is never in a hurry. The Russians now in the saddle are doing all they can to help the Germans. They are allowing the Teutons to withdraw their vast armies from the east and reinforce their western armies in an attempt to crush the French and English. They are also releasing German prisoners in their hands, who will again take their places in the fighting columns. Their peace movement also means access to new food supplies in Russia. All this means that Germany is in power at Petrograd and that Russia's allies have been basely betrayed. Ferdinand, King of Roumania, has abdicated in favor of Crown Prince Charles. "Uncle Sam" lies the head that wears a crown.

Uncle Sam is trying his hand at railroading. Come up this way Uncle. It is pleasing to know that Palestine, the land that every Christian and Jew claims a personal interest in, has been wrested from the ruthless Turk. Let us divide our sugar fairly with our Allies. New demands of the Germans is stripping the Belgians of their last morsel of food and last change of clothing. Red tape is freezing our gallant soldiers. Uncle Samuel has taken possession of the Dansville Sanitarium for a military hospital. Perry Houghtaling, of Jasper, was killed by a falling tree. He died before help could reach him. Deceased leaves a wife and three daughters to mourn his death. Thomas Murray's horse ran away thru our streets Monday. He headed for George Conkey's place. Perhaps he was looking for Tom. A dancing party is scheduled for the Opera House to-night. Every one using gas should look out for fires. The habit of turning the valves in an effort to get more gas when it is low is liable to cause trouble if the pressure should increase. Quite a number of Mexican cattle thieves were killed in their recent attempt to drive Texas stock across the Rio Grande. Ed Saunders, of Jasper, was in our city Monday. Mrs. Alta Loop, of Jasper, was a visitor in our city Wednesday. The Misses Virginia and Marie Malloy have returned to their school work after their Christmas vacation. Mrs. Mary D. Webster expects to entertain her son, Atty, and Mrs. D. L. Webster this week, after which Mr. Webster leaves for the officers training camp on Long Island. George Case, of Jasper, was a Greenwood visitor Monday. Some of our citizens thought the ringing in of the New Year 1918 was an alarm for fire. They were happily disappointed. Alonzo Dempsey, of Troupsburg, was a Greenwood visitor Saturday. The weather is tampered to the shorn lamb, but we have to take it as it comes. Everything has an upward tendency except the mercury. Our stage lines are liberally patronized. Mr. Owens will go to Buffalo this week to purchase a stock of furniture for his new store. D. D. Baker is to embark in the mercantile business. We wish him success.

PARAGRAPHS

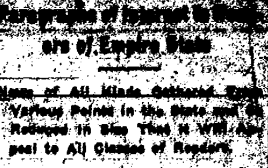

Canisteo's chamber of commerce is trying to induce the Erie to buy the New York & Pennsylvania railroad, which is scheduled to cease operations on Dec. 1. Rochester's equine population, the census of which has just been completed by the Humane society, is 4,611; the canny fakers recorded exactly 100 milnes. Secretary A. B. Woodward, secretary of the Rochester chamber of commerce, has been invited to do work for the government and has gone to Washington for a conference. Governor Whitman last week began the demolition of the notorious cell block of Sing Sing by removing the first stone. Something of a ceremony was made of the occasion. The town of Otto, Cattaraugus county, is so strongly pro-German that a candidate for supervisor ran for office on that issue. The Republicans and Democrats fused and defeated him. G. O. Clark of Italy, has just returned from Ohio, where he attended a Holstein cattle sale. He sold his thoroughbred record breaking butter fat cow, Pauline B. K. Ophelia, and her calf for \$10,000.

FOR CANADA

There are 120 posted men in Geneva. The Borden company has opened a receiving station at Canisteo. The only rural route leaving Canisteo is to be abandoned. Canandaigua and Chili have started energetic efforts to resist coal. Many Rochesterians have been stung recently by a fake live doctor. Forestville's First Baptist church will celebrate its centenary on Nov. 18. It is said there are at least 15 Mormon missionaries at work in Rochester. Phelps stopped business for a day in order to help harvest the potato crop. Lockport's city council has sent a committee a proposition to pay drafted men. More than 4,000 bushels of potatoes were gathered by East Aurora school children. Warsaw's hospital association is going to buy an X-ray machine costing \$2,000. This is the last year for a section of the Erie canal from South Greece to Pittsford. Fuel Chief McDougal of Erie county reports an improvement in conditions in his territory. Hindsdale has set out to raise a fund with which to build a town hall and gymnasium. Governor Whitman assures immediate suffrage for women in the spring and fall elections. Erie county supervisors have been asked to provide 1,500 rifles for the home defense corps. Mayor Hiram Edgerton says the ladies of Rochester may cast their first vote in the spring. Hornell says drunkenness has decreased 50 per cent there since the Brown law went into effect. Niagara Falls postoffice receipts for October were \$16,821.13, a gain of \$3,119 over October last year. Buffalo is among the leading cities of the country, based on the number of food pledge cards signed. Niagara's announced tax rate this year is \$10.57 a thousand, against \$20.04 in 1916 and \$21.61 in 1915. Livingston county supervisors have already taken up the question of providing extra booths for women voters. Michael F. Dumont has been appointed to the newly established chair of public speaking at Niagara university. Alonzo D. Razy, Republican, defeated George G. Razy, Democrat, for supervisor of Randolph by seven votes. County Judge Fitch stated in Geneva's juvenile court that he was determined to stamp out thievery among children. Rochester is the center of a campaign to raise \$50,000 for Catholic charities of the diocese of which it is the center. Wayne county schools are to conduct poster and essay contests during the month of November on the food value of milk. Charles S. Wilson, state commissioner of agriculture, has ordered the quarantine against rabies raised at Niagara Falls. Following increases in the rural routes running out of Bath, 10 carriers have resigned and more say they will follow suit. Irving Rowley of Medina is chairman of the committee which will attempt to raise \$150,000 in Orleans county for war relief. United States Marshal Lynn has urged upon Rochester manufacturers the necessity for guarding their plants against alien enemies. Cuba, Allegany county, which for the past two years has only had hotel license voted in favor of the entire four propositions. During October, the receipts of the Steuben county clerk's office at Bath were \$793.99; mortgage tax, \$1,572.51; office expenses, \$788.83. Federal authorities are investigating a charge that Webster farmers are boosting the price of potatoes to an unreasonable degree. Some Tonawanda residents opposed to paying \$2 a bushel for potatoes have secured several carloads of the tubers to sell at \$1.70 a bushel. Hundreds of acres of potatoes in the Conhoctog valley will probably not be harvested on account of the labor shortage, so Bath reports. Rochester university students' association is considering the abolition of sororities in the university in the interest of the spirit of democracy. Farmers of West Bethany have succeeded in securing most of their potatoes. No damage to the tubers is reported. Some beans have also been drawn in. John D. Dillon, state food commissioner, declares the state will drastically regulate the price of milk if dealers charge 15 cents a quart, as contemplated.
