—The Russian Bolsheviks seem to have been handed a lesson in the German peace proposals. The Kaiser's government modestly demanded control of the Russian wheat market for a period of fifteen years, that she retain all Russian territory now occupied by her troops, and that all German-made goods be imported into Russia duty free. Doubtless there were a few minor concessions she would have also, but she hoped to have no trouble in securing these when she had her victim securely tied. But even a Bolshevik has glimmerings of reason and the proposition was not received with enthusiasm.

SECOND EMERGENCY AGRICULTURAL CENSUS

Allegheny Farm Bureau Co-operating With State Food Commission in Getting Data for Benefits of Our Farms Again.

Jan. 17, 1918.
Editor Andover News:
Arrangements have been made by the State Food Commission and the State Department of Education to take the second emergency agricultural census. The Farm Bureau Managers have been appointed Census Directors for their counties and the taking of the census will be carried out thru the schools as last year. Each teacher will make the survey of each farm and then summarize for his or her district, and when the District Superintendents will check their results and summarize their districts, and the summaries turned into me.

Blanks will be sent out at once and by using Saturdays Jan. 26th and Feb. 2nd, with possibly one other day, it will not detract very much from the regular school work. Also teachers are urged to use their older pupils who can help out with this work. We are asking the farmers to lend every aid possible by helping to fill out blanks accurately, and wherever possible to furnish transportation to the teacher.

We want to rouse the interests of everyone as to the importance and good to be derived from this census. Your support will be greatly appreciated. District teachers are to have their reports in the hands of their District Superintendent not later than Feb. 5th. We wish to have our report ready by the 7th. Thirty-five (35) states are taking this census. We want to make a good showing for our state and for our county.

Again thanking you, I am
Very truly yours,
County Census Director,
RALPH Q. SMITH,
County Agricultural Agent.

Billions of Dollars
That heretofore have been stored away in vaults and safety deposit boxes are being taken from hiding and loaned to our allies in this war.

This Vast Sum
Will not be sent out of the country. It will be spent here for foodstuffs and the thousand and one other supplies that must be sold to our allies for the support of their armies and civil population. The articles must be raised and made in this country, by our own people.

Millions of Americans
Will be employed in this work, with factories running over time and farmers utilizing every hour of the daylight. Much of that money will even find its way right into our own local community, and every citizen will be proportionately benefited.

The Shrewd Merchant
Will heed the doctrine of commercial preparedness and will begin now to advertise his wares in this paper, for it is a self evident fact that the spender will go to the merchant who makes the most attractive bid for his business, whether that merchant be local or foreign.
