**LICENSE ALL AUTO-OPERATORS**

**Mayor's Conference and Public Safety Commissioners Behind Automatic Laws and New York State Automobile Association**

A conference on automobile and traffic regulations was held Thursday afternoon, January 24th at the headquarters of the New York State Conference of Mayors, Albany.

Only two amendments were recommended for the Uniform Traffic Act prohibiting the use of whistles on automobiles except by the fire department, and passing the left of street cars.

The Motor Vehicle Law will be amended so that all automobile operators will be licensed and the headlight muffle will be cleared and the law made effective by the Secretary of State approving devices to meet the requirements of the law.

It was agreed that the regulation of the pedestrian be accomplished by local ordinance. The Conference of Mayors will introduce a uniform ordinance for the regulation of pedestrians. A speed of 15 miles per hour to be made state-wide and local ordinances covering speed prohibited.

The New York State Automobile Association will introduce other amendments to the Motor Vehicle Law in accordance with the resolutions of the Annual Convention held at Corning.

Some months ago, when the food conservation opened, there was appointed in a certain state a publicity agent who got busy and announced that he had left his own business in the hands of employees while he served his country without pay. His first act was to dispatch telegrams to every newspaper in the state, calling attention to the necessity of co-operation with the Government, and urging the support of the paper to the fight for food conservation. No sane man can doubt that every one of those telegrams were paid for by the Government at full rates, when a two-cent stamp would have taken each one and gotten it to its destination in twenty-four hours.

There is such a thing as "saying at the spigot and wasting at the bun." The Government machinery is the bung, and can not be watched too closely.

**JACK LYNN STOCK COMPANY**

**To Play a Return Engagement at The Auditorium**

The Famous Jack Lynn Stock Company which made such a great impression on local theatre goers during their three days stay here several weeks ago will play a return engagement at the Auditorium on Thursday, Friday and Saturday, February 7, 8, 9.

The plays are all new and entirely different from any thing that the players presented here during their first visit. Each and every play to be given on the return engagement has had a remarkable success in New York City and the first time ever offered at popular prices on the road. Thursday night "The Governor's Pardon," will be the offering; Friday night "The Call of the North," the play that made both fame and fortune for Paul Gilmore; Saturday matinee "Clouds and Sunshine," and Saturday night, "Across the Divide."

The four big vaudeville numbers introduced between the acts with this organization will be entirely different from anything done here on the last visit.

Mr. Lynn promises a great many surprises and real novelties during this engagement, which local theatre goers should take advantage of.

The small prices 15c, 25c, 35c, will prevail at all performances in the evening, and 10c and 20c at the Saturday Matinee.

**BIBLICAL PROPHECY BRINGS PEACE BET**

Savannah, Ga., Jan. 29.—Basing his judgment on scriptural prophecies contained in the Book of Revelations, W. T. Patrick, a prominent citizen of Screven County, living at Sylvia, has wagered \$5,000 against \$1,000 put up by J. H. Evans, a Halseydale merchant, that the war will end and peace be declared within 60 days.

Mr. Patrick and Mr. Evans were discussing the war recently in a local hotel lobby and the conversation waxed lively on this subject. Both were strong in their convictions about the continuance of the war and were willing to back up their judgment with large stakes. The wager was the result.

Both gentlemen draw checks on a bank at Sylvia which have been certified and are now being held by A. D. Lewis of Sylvia pending the outcome of the wager.

The following is a summary of the rules that have been established by the United States Administration, with the approval of the President, in order to effect the further conservation of foodstuffs necessary to sustain the allies and our own forces over the next four months. These rules are effective from the morning of Monday, January 28th.

The effectiveness of the rules is dependent solely upon the good will of, and the willingness to sacrifice by, the American people. In the last analysis the success or failure of any plan that here outlined rests with the people. We are dependent on the co-operation of the American woman and her administration to see these rules are obeyed by equal timority who may
