A Grippé Epidemic

Every winter health boards warn against this weakening disease which often strikes those who are least prepared to resist it. You should strengthen yourself against grippé by taking

SCOTT'S EMULSION

which is the cream of cod liver oil, salted, purified and so skillfully prepared that it enriches the blood, creates reserve strength and fortifies the lungs and throat.

Don't delay—it may mean much.

NOT THE ONLY ONE

There Are Other Andover People Similarly Situated

Can there be any stronger proof offered than the evidence of Andover residents? After you have read the following, quickly answer the question.

A. Howland, highway commissioner, Barney St., Andover, says: "I do a great deal of heavy lifting and I think this strained my back and affected my kidneys. Often when in a stooped position, I could hardly straighten because of a sharp pain which caught me in the small of my back. The kidney secretions were unnatural, too. As another of the family had used Doan's Kidney Pills with good results I used a box, which I got at the Brunlage Drug Co., and they relieved me" in every way.

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Howland had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

SILKS of AMERICA and the ORIENT
Silk As The Wartime Fabric -- Use Silk

It seems almost a paradox, but when one stops to realize the great number of looms formerly devoted to weaving woollens for the civilian and now directed to military requirements, one can realize why SILK is to be THE FABRIC this season used in the apparel of women.

This is the practical and outstanding reason for the great use of SILK, but we believe that SILKS will be largely used because of their unusual beauty, both in colors and designs, and for the fact that today SILK is as inexpensive as WOOL. Below we give the materials that in our judgment will be most popular this season:

TAFFETAS

The Silk authorities, and by them we mean the experts in a large way, unite on the supposition that Taffetas are exceptionally adapted to the coming styles and the season now approaching.

A practical fabric, dressy, and moderate in price, especially good for general wear, it is undoubtedly the highest for Spring.

We have accordingly made calculations to meet the certain great demand and we feel that we are well able to take care of all needs in this line. OUR early purchases will make the purchasing price less to YOU.

SATINS

There will without doubt be a large demand for Satins, especially Black which will be featured both for Skirts and Suits. We do not believe in cheap Satins. None but the best makes are our leaders and we accordingly recommend the three big

CREPE DE CHINES

This material is also one of the leading features of Spring fashion. Whether for gowns, or waists, or even underwear, it possesses great possibilities. As a fabric none is richer or daintier and yet, if in good quality, will launder and give a service not surpassed for its weight and price. We carry a very considerable line of colors here, in both evening and day shades, and due to early contracts HAVE NOT ADVANCED THE PRICE. We suggest your consideration of this line.

SILK AND WOOL POPLINS

Many large mills have had to abandon manufacture of this material owing to scarcity of the wool yarn needed for this particular fabric. For this reason the price shortly will show great advances and the possibility of our getting reorderers filled even more certain of being turned down. We urge you to take present advantage for the above reasons of our splendid present showing. All the new shades now in stock and selling rapidly.

Your Spring Top Coat

The first advantage of buying your Spring Top Coat or Suit here is the style and value you will receive. The second advantage is the largeness and completeness of the stock we offer. This combination makes the logical place for you to come.
