 The store that makes every one of its ads a money-saver, to all who contemplate buying the thing advertised, will win an increasing number of readers. And 90 per cent. of these ad readers will become buyers.

**AGRICULTURE**  
 No sowed corn for any purpose. From any source, should be purchased, sold, or planted without having been tested for germination.  
 Disease is more than ever a crime when everybody should be able to do the most and the best work to help hit the lion. Keep it.  
 The real hitting power of all forms of work is like the hitting power of our bullets, it depends on speed and accuracy. We have a victory to win.  
 Food and labor are very high. Why expend them on a low-producing cow. More about this subject can be had from the Agricultural College at Ithaca on a card entitled "Milk Products." It will be sent on request.  
 The federal food administration ruling on poultry—Rule 14—does not prevent the killing of unprofitable birds for home use. Save feed by killing and eating, or canning, fowls as soon as they cease to lay.  
 The army in France is not the only one that Uncle Sam is depending on. He must have an army of food producers made up of farmers, an army of food conservers, made up of housewives, and an army of money-savers, made up of those who buy War-Savings Stamps and Liberty Loan Bonds.
