40-Horsepower 120-Inch Wheelbase

T IS not a small car. The wheel-base is 120 inches—the motor is 40 horsepower.

It is not a stinted car, but a car which shows you extra values— unique values—in every part and detail:

It has the Mitchell strength and en-

durance. It has oversize parts, big

It has the costly steels, the wealth of drop forgings for which Mitchell cars are famous.

It has a power fire pump, a dash-board engine primer, reversible head-lights, shock-absorbing springs. Also many other features which most fine cars omit.

It has finish and luxury far excel-ling any other car in this class.

How It Is Done

The more you know of present-day cars the more you will wonder how we sell such a car at this price.
