

Your Obligation to Your Government

There comes times of trial and sacrifice in the history of our nation and the world. The IOA faces that period to-day as it has never faced it before. Our country must have at its disposal the ready means of financing its war operations, must have it quickly and abundantly. Two loans have been over-subscribed and we have but scratched the surface of our resources.

The Third Liberty Loan campaign opens on the 6th. The patriotism and moral prestige of this Nation requires that this loan shall be tremendously over-subscribed within the shortest possible time. Your personal LOAN to the Government will be the unit of the Nation's response. The amount ONLY is a matter of self-determination. No man, woman or child is exempt in this draft. A Liberty Bond, a Savings Certificate, a Thrift Stamp has become the Nation's badge of honor. No man can escape with honor; no man should be permitted to escape. Freedom and justice in the world, in the United States, is the stake. It is OUR war - OUR boys are fighting the world's battles. OUR FLAG is at the front and has never been lowered in dishonor.

This loan is so arranged in amounts that every person can participate to the extent of his or her ability; bonds for those with \$50 or more to \$1,000; Savings Certificates for those with smaller amounts and Thrift Stamps for the CHILDREN. The Certificates and Stamps are on sale at all times and should be accumulated. As for the character of the LOAN suffice it to say that it is the best and most secure in the world.

The thing to be emphasized is PROMPTNESS. Meet your obligation the first day. Make Saturday, the 6th, the day of lining up for your certificates of loyalty. Don't wait to be solicited in such a cause. The amount is important, numbers are essential. The message to our allies and our enemies must be that America has re-enlisted "for the war."
