Some folks used to think that the Government had no business interfering even with rates of fare. But now—as a war measure—we raise no protest when the President regulates bread prices, transportation and even styles!

The National Defense Board asked clothiers to buy only "simplified" styles, so that the supply of wool might be conserved. We are now showing these simplified styles, but you needn't think they are commonplace just because the patch pockets, belts and other useless decorations have been cut out.

They're the classiest looking garments we have seen in many a day. When you see what Stain-Block-Smart, Clothcraft Guaranteed and Griffin Shops have evolved—looks and fit and wear all there—on \$15 to \$25—you'll begin to believe all the more in what we say.

STATE ORGANIZED FOR BOND SALES

Preparations Sufficiently Advanced to Enable Liberty Loan Workers to Start Great Drive on Time.

LOCALIZED RESPONSIBILITY BASIS OF THE CAMPAIGN

Arrangements Perfected for Individual Canvass Both in the Rural and Industrial Sections of Reserve District.

Preparations for the Third Liberty Loan campaign throughout the Second Federal Reserve District have been advanced with such rapidity that the working organization will be ready to take up the work as soon as the great drive opens.

In one particular the campaign outside of New York city will differ materially from the work done in the previous loan campaigns. The basic principle, as explained by the campaign chiefs, being "localized responsibility." The purpose will be to reach every possible purchaser of the bonds and to spare no effort in doing so.

Many complexities in the organization have been adjusted to meet this demand for localized responsibility. They can be understood best by a summary of the work to be done in the divided districts. Each county has been divided into sections under the supervision of individual chairmen. These in turn have proceeded to canvassing each locality on a house-to-house basis, the canvassing to be done not by outsiders, but by men living in the particular districts, men who are known and who are in many cases intimate with the people to whom the appeal will be made. It is believed this specific appeal will be much more effective in selling bonds than any attempt on the part of outsiders to convince residents of these sections of the necessity and the advantage of taking liberal amounts of the securities.

In the industrial sections of New York and New Jersey an equally detailed canvassing scheme will be carried out. Steps have been taken in every important industrial organization to have the Liberty Bond campaign brought forcibly to the notice of the workers. The work in this field will be both educational and of a patriotic nature.

Despite the extraordinary efforts to handle the campaign on an individual basis, the opinion has been expressed by many of the Liberty Loan workers that conditions for the sale of the Third Liberty Loan are much more propitious in the rural districts than in the previous loans. News coming from the American front in France has served not only as an inspiration to patriotic citizens, but has emphasized among all of them the vastness of the struggle and the great sacrifices which have necessary both in a material and a moral sense.

On the opening day of the loan the great machine will be set in motion and will be constantly in motion until the work is done. The preliminary work has been so thorough that it is expected very large sales will be made in many centers and that many towns will win the Liberty Loan Honor Flag.

The News Classified Ads afford all the publicity you'll need in finding a buyer for those lots—or a tenant for that store or office—by boarders or roomers—or household help—or lost articles—or a better position. Your "spare" along the line this week. We are change pays for it.

DISTRICT WORK TO BE PUSHED

Educational Meeting Will Be Held at Newark About 10 Days Prior to Third Liberty Loan Drive.

GOV. STRONG WILL SPEAK

County Committees of Northern New Jersey Will Perfect Organization and Consider Plans to Fulfill all Publicity Requirements of Various Dependent Campaign Centers.

New York.—It is the present intention of the committee for the district embracing the 12 counties of northern New Jersey to hold a large "educational" meeting at Newark about ten days prior to the start of the actual Third Liberty Loan drive. The committee earnestly desires to have all the chairmen of the local committees and also as many members of such committees as can possibly do so attend this meeting, following which the organization work in the district will be actively pushed. Benjamin Strong, Jr., governor of the New York Federal Reserve Bank, and other prominent men who are expected to address the meeting, will discuss all phases of the Third Liberty Loan.

In addition to 110 subcommittees representing what are known as banking communities in each county, about 200 local committees, representing non-banking towns, are being chosen by the chairman of the district committee, G. Herman Kinnicut. Each member of a local committee will be the chairman of a subcommittee, a member of the committee for the banking community to which the non-banking town logically belongs.

In a letter addressed to the chairmen of all the local committees, Mr. Kinnicut says that every effort will be made by the district committee to assist and co-operate in carrying out the work of organization. Special efforts will be made to provide an ample supply of Liberty Loan posters and other publicity matter.

"One of the difficulties encountered in the last loan," said Mr. Kinnicut, "was in getting the publicity matter to the various local committees on time and in sufficient quantities. In the next loan this part of the work will be more efficiently handled, but I have written to all the chairmen that they can greatly assist in this connection if they will let me know the minimum requirements of their respective towns, such as posters, subscription blanks, etc. If we can get this information well in advance we hope to be able to make shipments far enough ahead so they will arrive in ample time for the opening of the campaign.

"Experience has shown that to get the best results in any community it is of vital importance to get the organization of the local committees perfected and ready prior to the actual opening of the campaign, and there is every indication that this will be accomplished in our district."

DRAFT YOUR DOLLARS!

By WILLIAM F. KIRK.

Draft your idle dollars, sonny! Put them into bonds today. Uncle Sam needs the money for his fighters far away. Never mind the latest collars. Latest hats and latest ties. Draft your extra dimes and dollars for the cause that never dies!

Draft your idle dollars, daughter! You can help your nation too. Far away across the water. Galoshes, buttons, ties for your boys. Buy the bonds that break forever the shackles of poverty. Lead your boys and your nation to the triumph of the Free!

NEW USE FOR HONOR FLAG

Community Getting More Than Its Quota in Third Liberty Loan Campaign Will Receive Banner.

News from Washington that the treasury department has decided upon the use of an honor flag and an honor roll system in the Third Liberty Loan Campaign has been welcomed by the many selling agents throughout the Second Federal Reserve District, which includes all of New York state, the 12 northern counties of New Jersey and Fairfield county, Conn.

It is expected that tremendous rivalry will result among the various committees to win the honor flag. The flag itself is 36 inches wide and 54 inches long and will have a red border and a white center, across which will run three vertical blue stripes, indicating the Third Liberty Loan. As soon as the honor flag system was decided upon arrangements were made to manufacture them and distribute them among the various local Liberty Loan Committees. After the close of the bond selling campaign state and national honor flags will be raised. An honor flag will be awarded to each community that sells more than its quota of bonds. A star for the flag will be awarded to a community which doubles its quota.

Supplementing the flag as a part of the system will be an honor roll for listing the names of subscribers by communities and towns. The honor roll will consist of a card bearing a large colored reproduction of the honor flag and the words "Help Our Town Win the Right to Fly This Flag." A space is reserved at the bottom of the honor roll for attaching the names of subscribers.

FARMERS READY TO SOLVE FOOD PRODUCTION PROBLEM

Emphasizing the fact that food production necessary to win the war is essentially the work of the farmer in this country, M. C. Burritt, vice director of extension of the New York State College of Agriculture at Ithaca, has called attention to the fact that the most difficult problems since the Civil War. He added, however, that they are fully capable of solving these problems, saying: "They will not fail in the part."

"The handling of their job, however, demands long hours of hard work, a good deal of surplus money—more than ever before—with which to purchase seeds, feeds, fertilizers and other materials necessary to production. This is the time of year in which these expenditures are being made. They will to a certain extent compete with the Liberty Loan for the farmer's money."

"If I know the character and the temper of our farmers—and I have lived all my life with and among them—there is no question about their putting every dollar that they can spare or raise personally into the next Liberty Loan. I hope they will not do this to the detriment of production, as I believe their first and most important duty, but you may be sure that they will do their utmost."

"I think the Liberty Loan Committee has taken the necessary steps to secure the utmost co-operation of farmers in the floating of the next Liberty Loan is taking them fully into its consideration and county committee organization. I know that the men whose co-operation has been solicited will be equal to the responsibility which is being placed upon them. I have the greatest confidence in the ability of farmers to meet the demands of the war at this time if handicaps are not placed upon them and they are given the responsibility and opportunity for solving these problems in their own way."

FOR \$100,000,000 TO START MAY 20

All Chapters to Participate in Big Nation-Wide Campaign Lasting One Week.

The second \$100,000,000 War Fund campaign of the American Red Cross will begin on May 20 and continue through that week, according to an announcement made by G. M. Dahl, chairman of the War Fund Committee for the Atlantic Division of the Red Cross. This announcement followed the receipt of a telegram from the War Council of the Red Cross.

The big Red Cross campaign was originally set for May 6 to 15, but on account of possible interference with the Liberty Loan drive it was decided that the later date would more effectively serve the interest of the Red Cross and the Liberty Loan Committees.

The campaign will be nation-wide with each of the thirteen Division Headquarters and all Red Cross Chapters participating. Arrangements for the campaign in the Atlantic Division, which embraces the States of New York, New Jersey and Connecticut, are being made under the direction of Mr. Dahl, who is Vice-President of the Chase National Bank of New York City.

\$77,721,918 Already Appropriated. Through the action of the War Council the campaign for the second \$100,000,000 War Fund will start approximately eleven months after the first \$100,000,000 War Fund Drive. The first campaign was launched June 18, five weeks after President Wilson appointed the War Council, headed by Henry P. Davison. At the outset of its activities the War Council saw the need of a huge war fund, not only to uphold the morale and conserve the strength of our Army and Navy, but also to care for the helpless civilian sufferers in Europe.

The public immediately responded to the appeal, subscribing more than the \$100,000,000. Interest added to the contributions brought the total fund to \$105,000,257.

Of this amount \$77,721,918 has been appropriated for Red Cross activities at home and abroad. In addition, \$17,006,121 was refunded to chapters for supplies and local relief work, leaving a remainder of \$10,272,217 now available for appropriations. For the benefit of France alone the American Red Cross has expended more than \$30,000,000.

At the time of its first war fund campaign the membership of the Red Cross was a little more than 500,000. Today, as a result of the membership campaign during the week preceding Christmas, the Red Cross has approximately 23,000,000 members, not including the membership in its Junior Department, a collateral branch of the parent organization, which has enrolled a large percentage of the school children of the United States.
