—WSS—
—Word was received Wednesday by Mrs. Bottinger from Harry E. Keller, county chairman of the War Savings Committee that Old Allegany went over the 100,000 mark last week in the sale of War Stamps. Much credit is due the various committees and Thrift Societies for the place in which Andover holds in this great campaign. Mrs. Bottinger urges all members of these committees to assist in every possible way in the sales of bonds during the Liberty Loan campaign.

At the annual meeting of the Allegany County Holstein Breedsers Club held at the Court House in Hornell, Feb. 28th Prof. Cons. of Alfred Agricultural College, and Secretary Shultz of the Hornell Fair Association, made an urgent plea for school project work and school exhibit to the Hornell Fair and in a very polite way invited the Breedsers Club to encourage this work and suggested that some donations in the way of pure blood calves would be a great incentive to our boys to enter some of the contests as a result. Three calves were offered one bull calf, from Ross Daniels of Jeffer, N. Y., one heifer calf from the "Crandall Farms," and one bull from N. E. Coston, Greenwood, N. Y.

A committee was appointed by the Breedsers Club to meet with the Fair Association, to work out the detail of the contests. This meeting was held in Hornell last Tuesday and it was decided to give the calves as prizes to a stock judging contest under rules prescribed by the Agricultural School at Alfred. Any boy or girl in Allegany or Steuben County under 18 years of age can enter but will be required to sign an entry blank before July 15th. The professor of the Agricultural School has kindly offered to give the boys all the training possible by giving demonstrations in different parts of the counties and this is to be followed up with a correspondence course. One demonstration is to be at our farm and I am particularly anxious that a number of our Andover boys enter this contest. The contest is to judge four cows Thursday at the Fair. The Ayshire Club and Gurnsey Club have offered calves under the same rules, so boys interested in either breed can enter and will be taught to judge either breed. The school contest is to be the same as last year.

E. R. CRANDALL.

NO SAFER BACKER IN WORLD THAN UNCLE SAM.

Washington.—The credit of the United States was so high and unquestionable that in 1900, two years after the Spanish war, 2 per cent. bonds were offered at par and oversubscribed. This is a financial overabundance other nations has ever equaled.

Back of the \$250,000,000,000 to \$300,000,000,000 of this nation's resources stands the rugged honesty of America. War-Savings and Thrift Stamps are the safest security in the world.

The United States has never defaulted on any of its bonds. Not one of its bondholders has ever lost a cent of principal or interest except those who have voluntarily sold their bonds in a period of temporary price depression. One hundred cents on the dollar, principal and interest, has the United States always paid.

The War-Savings Stamps—"little baby bonds"—of the United States government are supported by the resources of the entire country, just as much as other securities issued by the government. This is the only security in the world which cannot decrease in value. It is always redeemable for more than you paid for it.

THE WAR-SAVINGS SOCIETY.

It provides an opportunity for a discussion of the war, which is the chief business in which this country is now engaged.

It furnishes an easy and convenient method of buying War-Savings Stamps. It furnishes a basis for comparison and enables you to see the comparative benefits of the different methods of buying.

It illustrates the benefit of regular saving by showing the growth of a small sum of money.

It shows the effect of the purchase of War-Savings Stamps upon the credit of the United States.

THIRD LIBERTY LOAN CAMPAIGN

Meeting Wednesday Night Was a Big Success Over Andover's Appointments and Addressed by F. A. Robbins, Speaker.

Andover has raised more than half of its \$45,400. Apportionment of the 3rd Liberty Loan. The campaign was opened at a meeting in the Auditorium, Wednesday evening, where \$11,000 was subscribed and added to \$11,000 previously taken.

The seating capacity of the auditorium and even the standing room was exhausted, so great was the interest in hear and learn of the war.

A. R. Baker, chairman for Andover, opened the meeting, by introducing Attorney Jesse L. Grant, of Wellsville, who on behalf of county chairman Geo. C. Ross, of the Food Commission, urged a greater saving of food, especially wheat products.

A mixed chorus of thirteen voices sang with much power "What Are You Going to Do to Help the Boys?" Just as they finished the song, from either side of the stage appeared a true blue American soldier boy, Harold Emery, from Camp Wadsworth, N. C., on the left side, and John C. C. on the right, carrying the colors of the 3rd Liberty Loan.

The sight of these Andover soldier boys was very impressive and brought the audience to their feet in an instant.

Hon. F. A. Robbins, of Hornell, was introduced and made a eloquent appeal to the Andover people to help win the war by buying Liberty Bonds, thus helping our boys.

He enquired if any present would like to exchange places with our soldiers in France, do the fighting and let them do the paying. None responded.

Mr. Robbins gave Great Britain, France and Italy a great compliment for the wonderful sacrifices they have made the past four years. He told his audience that these countries had been fighting the past three years of war just as much as the boys were fighting from the front.

He then showed his audience what America had done so far, lending money to their Government compared with what Great Britain, France and Italy have done in lending to their governments. The total wealth of Great Britain, the speaker said, including real estate property and every other kind of property was ninety billions. They raised from bonds sales, twenty-nine billions, or 32 per cent of their entire wealth. France with a total wealth of sixty billions, had lent its government twenty-three billions, or 35 per cent of its total wealth, and Italy with thirty billions of wealth, loaned nine billions, or one-third of its total wealth to the government.

The United States had loaned two hundred fifty billion and had loaned but eight one-half billions to the government.

The total wealth of the United States was one hundred billion dollars in 1913. It is now one hundred and fifty billion dollars.

This money has been loaned to the government.

It is now one hundred and fifty billion dollars.
