GRESSIONAL DISTRICT, COMPRISING CHEMUNG, TOMP-KINS, TIOGA, STEUBEN AND SCHUYLER COUNTIES:

The selection of a candidate for Congress in the primaries next Tuesday—September 3—is of tremendous importance to YOU.

This man, if elected, will be YOUR PERSONAL REPRESENT. ATIVE in the enormously important task of handling for our country the greatest business it has engaged in — the winning of

the war. Never before since the estalishment of our Rpublic has Congress been confronted with such serious business problems.

The man to represent you in these huge affairs should be the man you, in common with the other thinking women and men of your district, believe to be the ablest and most capable man available in the entire district—not any man who wants the office because of what he will receive or what he can get out of it or because he needs it.

Approximately 7,000 enrolled Republican voters have signed the petition asking for the nomination of

A. B. HOUGHTON

OF CORNING

as the Repulican Candidate for Congress. We have organized this district committee on national preparedness, secured his consent to become a candidate and are urging all Republican voters to vote for him in the primaries next week because we know he will give his country in talent, business ability and experience, and our district, the very best representation that is possible. We are asking him to go because of his thirty years of highly successful business training.

It is no time for politics—it is no time to allow any one to distract your attention from this one big issue by trying to inject personal abuse of candidates, cheap political claptrap, by using time-worn political tricks, personal exploitation, or for the man who wants to advance his own personal fortunes. It is no time for the promiser—who is willing to glibly offer anything to catch a vote.

IT IS TIME FOR SANE AND CAREFUL THINKING

The man you want in Congress is the man on whom you are willing to stake the life and destiny of your nation—the lives of your family and yourself—your son's life and your neighbor's son —the lives and welfare of the millions of boys in khaki fighting over there—in the event that his one vote might decide these momentuous questions.

He should be the man in whose business judgment you would be willing to trust not only all your personal property and effects but all the property and effects of your country and the decisions effecting billions of dollars during the years of the war to come-the most trying days of the nation.

The real problems of Congress will be business problems. You have a big part in winning the war in making sure that Congress is composed of the ablest business men capable of handling these problems.

You should cast your vote in the primaries next Tuesday with this one thing in mind. Political mud throwing must not cloud the vision of any American this year.

We must have big thinkers behind the big guns pounding at. militarism across the water, or the country's man-power and financial ability will go for naught.

Your Uncle Sam is out of politics.

Select the most capable man—the closest student of national and international affairs—the most successful handler of workers and vast affairs—the readiest thinker—the man of greatest and broadest experience in business.

We ask you frankly to apply these tests to A. B. Houghton, of Corning, and choose-him as the man for your vote in the primaries for the Republican nominee for Congress next Tuesday.

Respectfully Submitted

37th DISTRICT REPUBLICAN COMMITTEE ON NATIONAL PREPAREDNESS
