The Conversion of Liberty Bonds ,

The privilege of conversion which arose in conrequence of the issue of 4 per cent bonds of the Third under existing law can not be extended or renewed.

Delay in exercising the privilege will result in overburdening the banking institutions of the country and the Treasury Department by making it necessary to handle all conversions at the last moment and may result in many cases in the loss of the privileges of conversion altogether.

Holders of coupon bonds are strongly advised to exchange them for registered bonds in order to protect themselves against the risk of loss, theft and destruction of their bonds.

This bank will be glad to assist its customers in converting or registering your Liberty Bonds.
