what it got for meat and by-products (such as hides, tallow, oils, etc.) If cattle from the farm were turned miraculously into meat in the hands of retailers (without going through the expense of dressing, shipping and marketing), the farmer would get only about 1/8 cents per pound more for his cattle,

or consumers would pay only about 21/4 cents per pound less for their beef! Out of this cent or two per pound,

Swift & Company pays for the operation of extensive plants, pays freight on meats. operates refrigerator cars, maintains branch houses, and in most cases, delivers to retailers all over the United States. The profit amounts to only a fraction of a cent, and a part of this profit goes to build more plants, to give better service, and to increase the company's usefulness to the country.
