Swift & Company's 1918 Earnings

How They Affected You

During the twelve months ended Nov. 2, 1918 (its fiscal year), Swift & Company transacted the largest volume of business on the smallest margin of profit in its history.

Profits of the meat business—under regulations of the United States Food Administration — were limited to a maximum of 9 per cent on capital employed but not to exceed 2½ cents per dollar of sales.

Swift & Company in the regulated departments earned 7.57 per cent on capital employed and 2.04 cents per dollar of sales, out of which had to be paid interest on borrowed money and Here is how these earnings
