Mrs. Mark Wilson, who was called to Andover by the illness of her father, George Bloss, returned the first of the week to her home at Whitesville, and her sister, Mrs. Lawrence Hunt, of Wellsville is staying with her parents at present.

Gordon Rose of Canaseraga, came to Andover to pass Sunday with Mr. and Mrs. Lawrence Terribury. It is natural that a strong bond of friendship should exist between these two. Some months ago while in service in France, during a fierce engagement, Mr. Rose fell under the terrific gun bombardment in No Man's Land. Lawrence Terribury carried the wounded man from the field, and while in this brave act Lawrence received his wounds from which he was in the hospital many weeks.

Tidbits from

Our School

School opened again Monday after a very appreciated vacation. There was great excitement throught the school Monday noon when word was received that two war-tanks were to pass thru Andover and would give demonstration on the streets. On account of this no school was held in the afternoon.

At last the Cadets have their long coveted rifle range. After Mr. Chas Robinson had kindly granted the use of his land, another location nearer and involving less labor was found. Mr. Snyder and Mr. Folsing have very generously allowed the range to be installed at the head of the second pond.

The members of the unit wish to express their appreciation of these favors.

The first cadet to qualify as junior marksman was Donald Smith, with 167 out of a possible 200.

The new feature of amusement for the High School students is practicing for the show.

What's the matter with our "trustworthy" boys? Evidently shows have more attraction for some than Cadet Drill.

We are pleased to note that Thelma Alvord is recovering from her illness and expect to see her at school soon.
